(c) whether Government have taken any action in the matter:

(d) if so, the details thereof; and

(e) if not, the reasons therefor?

THE DEPUTY PRIME MINISTER AND MINISTER OF AGRICULTURE (SHRIDEVI LAL): (a) to (e). The Government's attention has been drawn to the need to adopt a Charter on Animal Rights. The details of animal rights are given in the statement below.

It is doubtful whether the Charter on animal rights has been enacted by any country in the world. Perhaps, the matter is still under consideration of the United Nations Organisation (UNO). However, it is stated that at no stage, the National Government have been refractory to these problems of the dumb creatures. The fundamental duties of every citizen as enshrined in Article 51 (A) of the Constitution is to show compassion to all living creature and protect natural assets like forests, rivers, lakes and wild life etc. The Government have enacted the Prevention of Cruelty to Animals Act. 1960 and established an Animal Welfare Board, Unfortunately, however, animals continue to suffer in the hands of men. Governments are of the opinion that adoption of Charter or enacting legislation are no effective solution unless, those are fortified with public awareness. With the concerted efforts, of the National Government, the State Governments and the Union Territory Administrations, if it is possible to increase awareness among public, especially children on the importance of compassion, the objectives of the Charter on Animal Rights are likely to be fulfilled. It is stated that the Governments will continue to do everything possible for promotion of animal welfare.
