

**Shri S. M. Banerjee:** May I know whether, for lack of proper publicity, nearly 52,714 pairs of shoes were rejected by the Russians and whether this bulk is rotting in the godowns because of the abnormal size of the shoes, and whether this would mean a loss of Rs. 10 lakhs to the exchequer?

**Shri Manubhai Shah:** The question and the inference are rather, I should say, joined in a wrong way. Firstly, this Small Industries Corporation does not only handle one single transaction of shoes either with Russia or with any other country but it has today a very wide range of work throughout the country. To give only one instance, the hire purchase work being done by this particular Corporation in the field of small industries runs into Rs. 1,79,00,000. Then, it is coordinating its activities with several types of regional institutes. It runs estates and has organised for the purpose of both internal market and external market. Looking into all this, one cannot surmise that the sum that has been spent is rather high or that the complaint about the shoes is due to any defective publicity.

**Shri Mahanty:** In view of the fact that an advertisement unit is functioning in the Ministry of Information and Broadcasting, may I know why this advertising campaign was not given to that unit and why was it given to a private firm?

**Shri Manubhai Shah:** This Corporation is a private limited company registered under the Companies Act. Over and above the Information Ministry's agency, we have got to utilise in all these public sectors and corporations, the normal trade agencies to let the small man in the village know that here is a Corporation which is going to come to his aid and the terms and conditions of the loan and hire purchase have to be given and several cases advertised. Normally, newspapers would not take all these terms and give them as great a publicity as we desire.

### Khadi Production

\*1795. **Shri Sugandhi:** Will the Minister of Commerce and Industry be pleased to refer to reply given to Unstarred Question No. 781 on the 21st August, 1957 and state:

(a) whether it is a fact that the subsidy benefit to the spinners on the traditional charkha works out at 40 per cent to spinners for Vastraswavelamban and less than 19% to spinners of wage earning class;

(b) if so, whether there is any proposal to remove this disparity; and

(c) what percentage of managerial expenditure is included while fixing the sale prices of traditional Khadi and its ready made apparels?

**The Minister of Commerce (Shri Kanungo):** (a) No, Sir.

(b) Does not arise.

(c) 18½ per cent for both traditional khadi and ready-made apparel. Since the latter are prepared under the same management, there is no additional charge for managerial expenditure.
