Title: Regarding problems faced in uploading information in the software developed for betterment of farmers under Pradhan Mantri Kisan Samman Nidhi Scheme.

*DR. SUJAY VIKHE PATIL (AHMEDNAGAR): Hon. Chairman Sir, thank you very much for giving me this opportunity to speak in the Zero Hour. The issue I am going to raise is related to the farmers and that is why I would like to speak in Marathi. Our Hon. Prime Minister Shri Narendra Modi ji has started Kisan Samman Nidhi Scheme for the betterment of farmers. Under this scheme, every farmer is getting Rs. 6000 yearly and this amount is a great help for his family. During this Covid pandemic, this amount has proved quite helpful for their families. This scheme is running through a kind of software and when this scheme was launched, it had faced some problem in uploading the information like Name, Bank A/c number and Aadhar Card Numbers etc. Hence, there are some disparities and mismatch in the data uploaded and that is why around 30% farmers are not getting the benefits of this scheme. In my Ahmednagar District, now they have corrected it and the latest and the updated information has also been uploaded. But, still these farmers are deprived of the benefits of the scheme.

Sir, through you, I would like to request Central Government to look into this matter urgently so that these poor and needy farmers should also get the benefit of Rs. 6000 per year under this scheme.
