Title: Regarding compulsory NCC training in schools and colleges and entry of transgenders in NCC-laid.

**DR. T. R. PAARIVENDHAR (PERAMBALUR):** National Cadet Corps (NCC) training should be made compulsory in schools and colleges. There should be compulsory NCC training in schools and colleges. Then only it would bring a sense of discipline among the younger generation, the school students and the college students. Besides, it should be one of the important components to build up the nation.

To instill discipline and prepare our younger generation to shoulder the responsibility in the future we have to make NCC compulsory in schools and colleges.

I also request the Union Ministry of Education and Union Ministry of Defence to consider the compulsory NCC training in schools and colleges and the entry of transgenders into the NCC.
