Title: Regarding Passport Seva Kendra in Kolar district, Karnataka-laid.

SHRI S. MUNISWAMY (KOLAR): Kolar is a very progressive district in Karnataka which housed Asia's first goldmine and has been progressing rapidly for the past several decades. Many MNCs have their establishments here on account of a positively encouraging environment. Therefore, the demand for passport will increase in the days to come. It is also important that many young talents from Kolar district should have accessible means to get their passports in time to make use of opportunities available globally. So, I request the Government to establish a Passport Seva Kendra in Kolar District, Karnataka.
