Title: Request the government to bring back the Indian abroad by Chartered plane for preventing corona virus.

**ADV. DEAN KURIAKOSE (IDUKKI):** Sir, with your permission, I want to change my subject in today's 'Zero Hour'.

Sir, I am supporting for whatever precautionary measures that were taken by the Government of India through the Ministry of External Affairs and the Health Department for preventing coronavirus. But I have to express the concerns of the people from my Constituency. They are stranded in different airports in various countries. Already our Members have expressed their issues yesterday and today also. But only one flight has been operated from Kuala Lumpur airport to our country. So many other people who are left over there are still waiting for further information. From my Constituency also, so many people are waiting there. People are facing similar conditions and similar situation in Manila airport and also in Philippines. Many people of India from various countries like Italy, Malta, Moldova, Armenia and Singapore and also from European Union are waiting there to come back to India.

I would like to know from the Ministry of External Affairs what plans they have got to rescue and bring them back and rescue them to India. I urge upon the Ministry of External Affairs and also the Government to send some chartered flights there for their return journey. Also, the Government should give direction to the Embassy officials to provide them with the minimum necessities like accommodation, food, medical care, etc. Thank you, Sir.
