Title: Request to study earthquake tremors in Idukki Parliamentary constituency.

ADV. DEAN KURIAKOSE (IDUKKI): Sir, I would like to draw the kind attention of the hon. Minister for Earth Sciences to a very important issue. From February 26 till March 2nd and 3rd and again on 13th and 14th March, tremors of earthquake have been felt in my area. Such tremors are being felt even now. That is a cause of big worry.

I would like to urge upon the Central Government to send a team from the National Centre for Seismology under the Ministry of Earth Sciences to my parliamentary constituency Idukki to have a study of the situation and address the concerns of the people. The main problem is that the epicentre of the recent tremors is very near to Idukki. That is a big concern for us. Therefore, I would like to urge upon the Central Government to send a Central team to have a study and address the concerns of the people there.

Thank you.
