Title: Regarding Talcher-Bimlagarh Railway Line

SHRI NITESH GANGA DEB (SAMBALPUR): The Talcher-Bimlagarh railway line is a very old project of my Parliamentary Constituency, Sambalpur in the State of Odisha. The land acquisition for the said project is moving at a snail's pace. The state-II forest clearance is still pending. The 149.78 km railway line is likely to be commissioned by March, 2023 subject to land acquisition. The district of Deogarh will be found on railway map after completion of this said project. This railway project connects the industrial city Talcher on the one end to steel city on the other end. I urge Hon'ble Railway Minister to specially look into the above project and instruct the officials for early acquisition of land and completion of said project by March, 2023.
