Title: Regarding setting up of a Passport Seva Kendra in Kolar, Karnataka - Laid.

SHRI S. MUNISWAMY (KOLAR): Kolar is a very progressive district of Karnataka which housed Asia's first gold mine and has been progressing rapidly since several decades. Many MNCs have their establishments in order to benefit from a positively encouraging environment. Therefore, the demand for passport will increase in the days to come. It is also important that many young talents from Kolar district should be able to get their passports in time if they desire to make use of opportunities available globally.

I request the Government to establish a Passport Seva Kendra in Kolar.
