Title: Need to set up the National Police University within the precincts of Sardar Vallabhbhai Patel National Police Academy, Hyderabad - Laid.

DR. G. RANJITH REDDY (CHEVELLA): People of the country are unable to control their senses due to various factors, be it relating to decisions of the Government of the day or be it due to sudden spurt in tempers between groups or individuals and, at times, such tempers spread across the length and breadth of the country. In such a situation, it will be a challenging task for Police to bring the situation under control.

As per the Constitution, Law and Order is a State Subject. But, at the same time, Government of India also supplement the efforts of the States, through various interventions, be it Modernisation of Police Force or through other schemes/programmes to train and provide other facilities to police.

Sardar Vallabhbhai National Police Academy is one such institution which is playing a pivotal role in imparting training to Police to lead with courage, uprightness, dedication and a strong sense of service to the people. But, this institute is catering only to the needs of IPS officers. But, there is no institution or university in the country run by Government to impart education in policing and internal security through UG and PG academic programmes in specialized subjects like policing, science, cyber forensic, risk management, forensic science, correctional administrative aspects, criminology, etc.

Now, Ministry of Home Affairs is proposing to set up National Police University to focus on the above issues. I strongly feel, since

SVPNPA is imparting necessary training, management skills, etc., to IPS officers, it is most appropriate to set up the proposed National Police University within the precincts of SVP National Police Academy which will be a befitting tribute to this great freedom fighter and also is the most suitable place since it has huge tracks of land to set up National Police University.

Hence, I once again request Ministry of Home Affairs to set up National Police University at SVPNPA, Hyderabad, and give it the name as SVP National Police University.
