Title: Need to sanction a railway station in village Sorkhi in Hissar district of Haryana - laid

SHRI BRIJENDRA SINGH (HISAR): There is an ongoing work of laying of new railway line in district Hisar, for which 21 acres land in village Sorkhi have been acquired by the government for building a railway station. Now, it has come to notice that a ‘halt’ instead of railway station is being developed in village Sorkhi. There are twelve villages falling within 5 *kilometers* radius of village Sorkhi and a proper railway station will make life convenient for public at large.

Keeping in view the larger public interest in mind, I would request the Hon'ble Minister of Railways that a railway station and not a railway halt be developed in village Sorkhi.
