Title: Demand to operate more flights from Gulbarga from Monday to Friday both in the morning and evening.

DR. UMESH G. JADHAV (GULBARGA): I would like to say that my constituency Gulbarga is the most backward constituency. On 22.11.2019, one airport was inaugurated there. People are very happy and thrilled, but only one flight of Star Air is operating at present. People of my constituency demand that two or three more flights, and also the cargo aircraft, should be started on that route. We also demand that regular night Air service should also be started. We are thankful to Shri Narendra Modi and Yediyurappa ji for having inaugurated this airport after 15 long years. People are very much thrilled but regular service of the airline is required. Also, the timings at which the flights are being operated are very odd. They are running on Friday, Saturday and Monday. Our demand is that the airline should operate flights from Monday to Friday both in the morning and evening. We are very much thankful to you for giving me time to speak.
