Title : Demand to increase the amount of wages and working days from 100 to 125 with an immediate effect under MNREGA Scheme.

KUMARI RAMYA HARIDAS (ALATHUR): Sir, I would like to draw your attention to an important matter regarding MGNREGS. It is very painful that the workers under MGNREGS of Kerala did not get the wages for eight months after Onam celebration. Most of the families are sticking upon this income. They became helpless and hopeless. The Government should interfere in this matter immediately to issue the necessary funds to distribute wages of the workers.

Sir, hundred working days for a family is inadequate nowadays. The price hike of commodities made the life of people miserable. So, I request the Government to think about increasing the working days from 100 to 125 with an immediate effect.

In Kerala, the standard of living and living cost is very high in comparison to other States. Therefore, I request the Government to take initiative to increase the wage in Kerala from Rs. 271 to Rs. 300.
