Title: Request government to establish a tertiary care cancer hospital at Viskhapatnam for the early diagnosis and treatment.

**DR. BEESETTI VENKATA SATYAVATHI (ANAKAPALLE):** Hon. Speaker, Sir, cancer patients are increasing all over the world and also in India. Almost 20 lakh people are suffering from various types of cancer, especially throat cancer, stomach cancer, breast cancer and carcinoma cervix. Almost 10 lakh people are losing their lives and 10 lakh new cases are being registered every year. I would request the hon. Minister of Health and Family Welfare to establish a tertiary care cancer hospital at Visakhapatnam so that early diagnosis and best cancer treatment facilities may be available in all the three districts of north Andhra Pradesh, namely Visakhapatnam, Vizianagaram and Srikakulam.
