Title: Request government to give unemployment allowance to unemployed youngsters throughout the country till the time they get employment.

SHRI SU. THIRUNAVUKKARASAR (TIRUCHIRAPPALLI): Hon. Chairperson, Sir, thank you very much for giving me this opportunity.

Today nearly 30 crore youngsters are unemployed throughout the country. The Government promised to provide 2 crore jobs every year. But the promise has not been fulfilled. Students in order to complete their studies take loan from the banks and their parents pledge their properties and land to get their children educated. But after completion of their studies they are not getting employment. So, these unemployed youths resort to different ways of life and some of them commit suicide, some of them join terrorist groups and it goes on.

Sir, I would like to urge upon the Central Government to give unemployment allowance to unemployed youngsters throughout the country. It can be Rs. 3000 for those unemployed youth who have passed the 12th standard; it could be Rs. 5000 for those unemployed youth who are graduates and post-graduates. The expenses can be shared by the States and the Central Government. They can help the youngsters till the time they get employment. This unemployment allowance should be given to the unemployed youth of our country. This is very important.
