Title: Request Cantoment Board, Bhingar to solve the problem of scarcity of drinking water faced by its residents.

DR. SUJAY VIKHE PATIL (AHMEDNAGAR): Hon. Chairman, Sir, in my Constituency, Ahmednagar, there is a very big military establishment as well as a Cantonment Board. This Cantonment Board is located in the region called Bhingar, which caters to a civilian population of about 20,000 to 30,000. This Cantonment Board is also responsible to provide drinking water supply to the residents of Bhingar. For the past few months, the residents of Bhingar are facing very severe scarcity of drinking water in their area. Whenever the residents of this area go to the Cantonment, they are not being responded to properly.

I would, therefore, request the Government to intervene in this matter and instruct the Cantonment Board to solve the drinking water problem of the residents of Bhingar and give them relief. Thank you.
