Title: Regarding construction of flyover at Kooteripattu road intersection on NH-66 near Villupuram, Tamil Nadu.

**DR. M.K. VISHNU PRASAD (ARANI):** Thank you, Mr. Speaker. I represent Arani parliamentary constituency, in which Mailam is an Assembly segment. NH-66 is passing through my Arani parliamentary constituency, that is, Chennai to Trichy. In Mailam Assembly segment, one Kooteripattu Junction is there. It is a very thickly populated area and there are many intersections on the roads, due to which several accidents are taking place, some of which are very fatal and some are less fatal. However, so many accidents have taken place and so many lives have been lost. We have represented the matter of urgency, to have a flyover at this Kooteripattu Junction and feasible reports have already been submitted. But almost for five years, the work has not started. It has not taken off. So, I urge upon the Union Government, the Highways Authority to interfere in this matter to have a flyover in Mailam Assembly segment of Arani parliamentary constituency to immediately start the work and save the lives of several thousand people.
