Title: Regarding Oil exploration in Krishna-Godavari Basin- Laid

**SHRIMATI CHINTA ANURADHA (AMALAPURAM):** I represent people of Amalapuram constituency which is geographically part of K.G. Basin (Krishna Godavari Basin).

K.G. Basin is rich in hydro carbon and other minerals. Geographical mapping of the area was done in 1959, 1975 and 1978.

There are 557 exploratory wells out of which 225 are prospect wells. AT present there are more than 75 working wells. 23 are oil wells and 53 are producing wells. Majority of them are in my constituency area.

I request the Hon'ble Minister to fulfill the long cherished dream of the people of our region to make available the gas for their domestic use, look into oil gas leakages, implement proper drills in checking the pipelines so as to avoid accidents and address other issues arising due to the presence of oil giants in the region.
