Title: Regarding redesigning of Cossimbazar Railway station in Murshidabad district of West Bengal.

SHRI ADHIR RANJAN CHOWDHURY (BAHARAMPUR): The Cossimbazar Railway Station which is situated in the district of Murshidabad is an important station both in terms of commercial activities and its historical perspective as well. Railway Heritage Committee even organized a grand cultural programme in the vicinity of this station to promote heritage value of this area.

Nowadays the station is a victim of indifference and apathy of Ministry of Railways. In the name of development of the station, it has been turned into a danger zone for the commuters who are confronting inconveniences beyond words.

Passengers are to negotiate the Rail track for availing and boarding trains as the entire station was restructured in a faulty manner which has become a nightmare for the people.

Immediate measures need to be taken up for redesigning the station in order to facilitate movement of passengers.
