Title: Need to take precautionary measures at sea ports and the airports so that Ebola virus could not spread in the country.

DR. KAKOLI GHOSH DASTIDAR (BARASAT): I wish to draw the attention of the Government towards a serious medical condition that has affected the Democratic Republic of Congo, in which more than 1,600 people have already died till yesterday and the World Health Organization has declared a public health emergency of international concern, which is a very serious issue. This Ebola virus has no particular treatment and in this modern age, where travelling is so frequent between nations by air and sea, our Government should start vigilance at the seaports and the airports, for people particularly coming from the African Continent, so that this Ebola virus does not spread in our country and cause public health hazard.

HON. CHAIRPERSON : Dr. Sanjay Jaiswal is permitted to associate with the issue raised by Dr. Kakoli Ghosh Dastidar.
