Title: Need to take steps to revive and take care of Acharya Jagadish Chandra Bose Botanical Garden in Howrah Parliamentary Constituency, West Bengal.

SHRI PRASUN BANERJEE (HOWRAH): Sir, I thank you for giving me a chance to say something about my Constituency.

I am elected from the Howrah Parliamentary Constituency in West Bengal. I would like to draw the kind attention of the Minister, through you, to the century-old Acharya Jagadish Chandra Bose Botanical Garden, which is situated within my Constituency.

It is a unique organization among its kind not only within the country, but also in the world. Hundreds of research scholars from all over the globe come here to study along with thousands of spectators who daily visit the garden not only from different corners of the country, but also from overseas.

It is the pride of our country, but nowadays it is suffering from infirmity due to lack of proper maintenance. The health of the garden is rapidly deteriorating. It was noticed that the boundary wall of the garden lay broken months ago. Further, lots of valuable and rare plants are kept unprotected, which shows how much care and nursing it got from the authority.

Sir, through you, I am demanding from the Ministry to look into the matter seriously, and pay proper attention to revive the health of the century-old garden. Thank you, Sir.

माननीय अध्यक्ष : माननीय सदस्य श्री रमाकांत भार्गव जी भी पहली बार सदन में चुनकर आए हैं।
