Title: Need to set up cold storage and mango processing unit in Theni Parliamentary Constituency.

SHRI P. RAVEENDRANATH KUMAR (THENI): Sir, in my constituency of Theni, in and around Periyakulam and Bodi, cultivation of mango, our national fruit, is undertaken in about 10,500 hectare which yields more than 125 tonnes every day from the month of March to June. Approximately, every day, two tonnes of mangoes are sent to the market, especially to the nearby State of Kerala where our mangoes are famous. The farmers are giving sweet to others but their own life is not sweet. So, I request the Government to take necessary action for setting up of cold storage and mango processing unit.
