Title: Need to take measures to provide better and safe environment to women and girls in the society.

SHRI RAGHU RAMA KRISHNA RAJU (NARSAPURAM):

Women and girls from across the globe believe India is unsafe for them so this is certainly a shame to every citizen of our country. Police Patrolling or Mobile apps are just a partial help as we don't have enough police to guard every girl and not all girls or women carry smart phones. To face the world with pride Indian Government should consider the following:

1. Make Good Touch and Bad Touch awareness subject as mandatory for both boys and girls studying in Primary Schools

2. Make Self Defense Training Mandatory for Girls studying in Schools, Colleges and Universities. This subject can be taken up as Jhansi Rani

3. Government should pass an order stating every employer employing female employee should provide Free Self Defence Training programme for their female employees. Female employees face abuses at work, while commuting to work and even at their home.

By considering the above 3 steps India can ensure that the children, girls and women of our country will be able to confront any odd situations leading to reduction in crime rate against Women, Girls and Children.
