Title: Need to set up AIIMS in Kerala.

SHRI K. MURALEEDHARAN (VADAKARA): Hon. Speaker, Sir, there is a very long-pending demand before the Health Ministry from the State of Kerala that a new All India Institute of Medical Sciences should be set up in Kerala. For this purpose, the Kerala Government identified four places- Trivandrum, Kottayam, Kochi and Calicut. Lastly, the Health Minister of Kerala wrote a letter to the Central Health Minister that 200 acres of land in Calicut district is ready for construction of AIIMS in Kerala. Kerala stands first in education and health. Why is an institute like AIIMS being denied to the State of Kerala? I urge upon the Health Ministry to intervene in this matter and allow an AIIMS to be set up in the State of Kerala.
