Title: Regarding water stagnation in railway underpasses in Karur Parliamentary Constituency-laid.

SUSHRI S. JOTHIMANI (KARUR): Many parts of the Karur constituency have been facing the chronic problem of water stagnation in the Railway Underpasses. Every year, the inundation of the underpasses renders them unusable for a considerable amount of time. This problem affects the underpasses at the following locations in the constituency:

1. Vellapparai, Gujiliamparai block, Dindigul District
2. Subramaniyapuram, Gujiliamparai block, Dindigul District
3. Puliampatti, Gujiliamparai block, Dindigul district
4. Eriyodu, Vedasanthur block, Dindigul district
5. Laxmanapuram Thadikombu pirivu, Vadamadurai Block, Dindigul district
6. Mayanur Panchayat, Krishnarayapuram block, Karur district
7. Thanthoni Block, Karur District
8. Manapparai Town at Manapparai Trichy Road, Trichy district
8. Puthuvadi Panchayat Kumarampatti road, Vaiyampatti Block, Trichy district.

The issue has not been resolved at all the places, despite the Divisional Railway Manager's visit to some of these sites. No Standard Procedure is being followed in redressal of the issue. Residents in the

vicinity of these areas have to travel long distances to cross the rail tracks, which is unsafe. It must be ensured that a permanent solution is implemented to resolve the issue of stagnation.
