

**Shrimati Bena Chakravarty:** I want to make one submission. A question has been answered and in respect of that question certain supplementaries have been put. If we want to put a further supplementary, does it mean that since we did not get up in the first instance we will not get a chance?

**Mr. Speaker:** No, no. These are all exceptional cases. I am always allowing the hon. lady Member to put such supplementaries.

**Shri Jaipal Singh:** As you know, it is much more exciting to catch your eye than for you to catch our eye. Yesterday you announced that you would read out the names of the questioners. Now, in the case of the next question, for example, you see the number is great. I think much of your voice and the time of the House will be taken up if you went right through the list. It is much better that we catch your eye. It is much more exciting.

**Mr. Speaker:** In the case of a long list, I will allow hon. Members to catch my eye rather than my catching their eyes.

#### Engineering College in New Delhi

Pandit D. N. Tiwary:  
Shri D. C. Sharma:  
Shri Osman Ali Khan:  
Shri Radha Raman:

Will the Minister of Scientific Research and Cultural Affairs be pleased to state:

(a) whether it is a fact that the British Government and the British

Industries have agreed to assist in the establishment of an Engineering College in New Delhi;

(b) if so, the nature of assistance they have agreed to give;

(c) the expenditure (capital and recurring) to be incurred by the Government of India;

(d) the details and estimates of the Plan; and

(e) the progress so far made in the setting up of the College?

**The Minister of Scientific Research and Cultural Affairs (Shri Humayun Kabir)** (a) to (e). The British Government and the Federation of British Industries have agreed to assist in the establishment of an Engineering College in Delhi with (i) equipment worth £0.25 million, and (ii) services of 8 Professors for a period of 5 years.

The new College will take over the degree courses of the Delhi University at present available in the Delhi Polytechnic, and will have provision for 250 new admissions every year into the First Year Degree Class in the following subjects:—

- (i) Civil Engineering,
- (ii) Mechanical Engineering,
- (iii) Electrical Engineering (including Electronics),
- (iv) Chemical Engineering, and
- (v) Textile Technology.

As and when practicable, it will provide facilities for post-graduate courses and advanced work in selected fields.

Detailed estimates of cost are being worked out. Preliminary estimates indicate that an expenditure of approximately Rs. 1.20 crores capital (including that on Hostels and some staff quarters) has to be met by the Government of India. The ultimate recurring expenditure is estimated tentatively at Rs. 13.0 lacs a year which also has to be met by the Government of India.

The site for the new College has been acquired and discussions are currently taking place with the representatives of the U.K. Government for settling the details of assistance to be given by them

**Shri R. C. Majhi:** May I know whether the equipment that is being given by the British is on loan basis?

**Shri Humayun Kabir:** There is an offer of a gift

**Shri R. C. Majhi:** When is it expected to function?

**Shri Humayun Kabir:** I cannot give any date as to when it will reach here, but we hope that this College will start functioning before the end of the Second Plan period

**Shri D. C. Sharma:** In the statement it is said that the services of eight professors for a period of five years will be requisitioned from abroad. May I know whether there is any dearth of talent or professors in mechanical engineering, civil engineering, electrical engineering and chemical engineering in our country that we are taking the services of eight professors from abroad?

**Shri Humayun Kabir:** The answer is in two parts. Firstly there is a shortage as a whole of teachers for technical institutions in the country. Secondly, we expect to get the services of some of the most eminent teachers in the British universities and that will help to raise the standards of this College

**Shri Shree Narayan Das:** In the statement it has been stated that this College will take over some courses of the Delhi University and the Delhi Polytechnic. I would like to know the position of the Delhi Polytechnic. Will it be shifted from here?

**Shri Humayun Kabir:** No, it will not be shifted. It will be a polytechnic

**Shri Bishwanath Roy:** May I know whether the Institute will be open to students from all the States?

**Shri Humayun Kabir:** I have already stated that it will be open to students from all over India

श्री जगत रॉशन श्रीमान्, इस विद्यालय पर इतना ज्यादा रुपया खर्च होने वाला है, अतः मैं जानना चाहता कि इस विद्यालय में और हमारे देश में जो दूसरे इंजीनियरिंग विद्यालय हैं, क्या अन्तर होगा? और इस में कौनसी विशेष शिक्षा दी जायेगी?

श्री हुमायूँ कबीर . जितने हमारे विद्यालय हैं उन में जो खर्च होता है वह बराबर होता है। कोई ज्यादा फर्क नहीं होता।

**Shri Hem Barua:** The statement says that £25 million will be paid as financial assistance and that the services of eight British professors would be requisitioned for this Institute for a period of five years. May I know whether the salary of these professors will be paid out of this £25 million or out of the Exchequer of the Government of India?

**Shri Humayun Kabir:** In the statement it is made quite clear that the assistance which is offered, is of two types, i.e. equipment worth about a quarter million pounds and assistance by giving the services of these eight professors for a period of five years, which also is estimated to be approximately a quarter million pounds

श्री रामेश्वर दांडिया मैं यह पूछना चाहता हूँ कि इस विद्यालय में कितने विद्यार्थी पढ़ सकेंगे और क्या स्टेट्वाइज कोटा दिया जायेगा?

**Shri Humayun Kabir:** There will be about 250 students per year in this College. We cannot give any State-wise quota for this

**Shri B. K. Gaikwad:** How many students will be admitted to this College?

**Shri Humayun Kabir:** I have just now given the answer

**Shri Tangamani:** From the statement we find that the site has already been acquired and also that the foundation-stone has been laid. May I know when this building will be completed and the 250 students will start getting their training?

**Shri Humayun Kabir:** I am not a prophet, but, I have said already that we hope that it will start functioning before the end of the Second Five Year Plan period.

**Shri Jaipal Singh:** Since this is going to be an all-India institution, may I know why in this particular case it has been decided to depart from the usual practice of having State quotas?

**Shri Humayun Kabir:** There are no State quotas in the all-India institutions at all. They are open to all States and we are trying to observe a kind of regional fairness in distribution. There are no quotas.

सेठ गोबिन्द दास यह जो प्रस्ताव प्राया है इजीनियरिंग कालिज का, क्या यह केवल दिल्ली में ही बन सकता है, या इस प्रस्ताव के अनुसार दिल्ली के निकट और भी कहीं यह कालिज बनाया जा सकता है ?

श्री हुमायूँ कबीर इस कालिज की फाउंडेशन पड चुकी है और यह दिल्ली में ही होना चाहिये ।

**Shri Keshava:** What is the system of admission that is proposed to be introduced in this Institute?

**Shri Humayun Kabir:** For all the Government of India institutions we are proposing to have a kind of a competitive examination which will be held at different centres throughout India and it will be on the basis of merit that admissions will be made.

### U. S. 100 MILLION Dollar Loans

+

\*132. { Shrimati Renu Chakravartty:  
Shri Ram Krishan:  
Shri Hameshwar Tandia:  
Shri S. Osman Ali Khan:  
Shri Nagi Reddy:  
Shrimati Parvathi Krishnan:  
Shri Vasudevan Nair:  
Shri Aurobindo Ghosal:  
Shri Mahant:  
Shri Bishwanath Roy:

Will the Minister of Finance be pleased to lay a statement on the Table showing:

(a) who are the beneficiaries of the loans given to the private sector from the latest 100 million dollars loan from Development Loan Fund of the U.S. Government,

(b) the exact nature of the project for which these loans have been sanctioned,

(c) the exact amounts sanctioned under separate heads, and

(d) the terms and conditions of the loans?

The Deputy Minister of Finance (Shri B. R. Bhagat): (a) to (d) A statement is laid on the Table of the Sabha [See Appendix I, annexure No 37]

**Shrimati Renu Chakravartty:** In the statement I find only two parts, (a) and (b). What about (c) and (d)?

**Shri B. R. Bhagat:** The whole statement relates to parts (a) to (d) of the question.

**Shrimati Renu Chakravartty:** In answer to part (a) of my question, a very generalised statement has been made. May I know the amount of the loan that has been given either to the house of Tatas or Birlas or Dalmias Jain or Sahu Jain?

**Shri B. R. Bhagat:** The procedure of this loan is such that the payment is made to the Government of India and for the past commitments that is
