**Title: Regarding Development of Infrastructural Facilities at Kalaburagi Airport**

**DR. UMESH G. JADAV (GULBARGA):** The operation of Kalaburagi Airport has ushered a new era of development in this region and the Traders and Industrialists are utilising the Airport to further their cause of Trade and Commerce. But, the absence of Night Landing facility is hampering their free movement as they cannot return back to Kalaburagi City after visiting the nearby Cities of Bengaluru, Hyderabad and even Mumbai. Provision for Night Landing work has been started almost 2 Years back but it's moving at a very low pace. I request to expedite the work and complete it at the earliest.

## Establishment of Cargo operations -

In the absence of the much-needed Cargo Terminal at Kalaburagi Airport, the farmers, floriculturists and Traders are unable to export their produce to different destinations in India and also abroad. The starting of Cargo Terminal at Kalaburagi Airport will go a long way in promoting floriculture, agriculture and horticulture of this region besides helping the industrial entrepreneurs to export their products within a short time and thus further their Business. I request that permission be granted for Domestic Air Cargo by the BCAS.

I would also like to request to operate Flights to New Sectors like Mangaluru, Mumbai, Ahmedabad, Chennai, Varanasi, Kishangarh from Kalaburagi.
