Title: Regarding banning of plastic carry bags - Laid

SHRI RAMEN DEKA (MANGALDAI): The large scale use of plastic carry bags and other plastic consumables are the major cause of pollution. Plastic carry bags are blocking the drains. Due to blockage of drains, water-logging occurred during rainy season in different cities which created flash flood. Now this problem has spread to all cities and towns of our country. In view of this, I earnestly request the government to enact a law to ban the plastic carry bags at the earliest.
