Title: Regarding alleged increasing incidents of attack on minorities- laid.

SHRI E. T. MOHAMMED BASHEER (PONNANI): The spirit of Indian secularism is going to be in doldrums as the attack on the life and property of minorities are increasing day by day. News coming from various states are worrisome and Government of India's efforts to address it is the need of the hour. Government should convene an all party meeting to discuss this burning issue and evolve a programme of action.
