**Title: Need to construct stilted road in Goa.**

**SHRI FRANCISCO SARDINHA (SOUTH GOA):** Sir, in my constituency, one road is being built in NH-7. It is just by the side of the commercial capital of Goa. It is going from Colva to Sernabatim to Varca. ‘

Sir, Goa is a very heavy rainfall area. We get, on an average, 130 units of rain. We are trying to build it with big pipes. The request or the demand of the people is for stilts. So, I would like to convey it to the hon. Minister that it has to be on stilts. Otherwise, the crops there will get destroyed.
