(c) All the Secondary/Higher Secondary Schools require recognition by the respective State Government or Union Territory Administration. The recognition conditions prescribed under the Education Acts or Rules of the concerned State or Union Territory, exercise control over payment of salaries to the school staff and charging of fees. Some such Education Acts or Rules also prohibit charging of capitation fees and taking of donations. In order to curb the demand for admission to private schools, it is necessary to raise the standards in Government schools and bring them on par with good private schools. Upgrading of standards in government schools is being done by providing them with a broadly uniform pattern of syllabi/textbooks and improving their physical facilities and educational inputs through a number of Centrally Sponsored Schemes.

As regards technical institutions, the Central Government have been urging the State Governments to take steps to prevent charging of Capitation fees for admissions. Some States like Andhra Pradesh, Bihar, Karnataka and Maharashtra have enacted legislation banning Capitation fee. Further, the All India Council for Technical Education (AICTE) has been vested with statutory powers to lay down guidelines, *inter-alia*, in regard to fees charged by technical institutions.
