[MR SPEAKER in the Chair]

ORAL ANSWERS TO QUESTIONS

Delhi Transport Undertaking

*77. { Shri S. M. Banerjee:
Shri Shree Narayan Das:
Shri Prakash Vir Shastri:

Will the Minister of Home Affairs
be pleased to state

(a) whether it is a fact that the dispute between the Delhi Transport Undertaking Workers' Union and the Delhi Transport Undertaking for which there was some agitation some months ago, has been settled, and

(b) if so, the nature of settlement arrived at?

The Minister of Home Affairs (Shri G. B. Pant): (a) No.

(b) Does not arise

Shri S. M. Banerjee: May I know whether it is a fact that even today many employees including the President and the General Secretary of the recognised DTU Workers' Union are suspended and that about 700 workers are on charge-sheet? If so, what steps are being taken by Government to settle this dispute?

478

Shri G. B. Pant: The Conciliation Officer of the Delhi Administration at one time tried to intervene in the matter and to bring about some sort of an understanding. His efforts, however, did not ultimately bear any fruit. So far as the present situation is concerned, I do not think that 700 workers have been deprived of their jobs.

Shri S. M. Banerjee: No, not deprived of their jobs, but charge-sheeted. My submission is that 700 employees are on charge-sheet and about seven or eight office bearers have been suspended. So, my question is whether you are referring this matter to arbitration or are appointing somebody to investigate into the whole affair because these men are still on charge-sheet.

Shri G. B. Pant: I have no authority to refer the matter to arbitration or to take any other action as this Undertaking is run by the Delhi Corporation. The Transport Committee of the Delhi Corporation has taken certain decisions. But I am not sure if the information that has reached the hon. Member is altogether correct.

Shri S. M. Banerjee: I want to know whether it is a fact that the representatives of the Union agreed to have the Mayor of the Delhi Corporation as arbitrator and, if so, whether Government has also agreed to this and whether he is being appointed as arbitrator.

Shri G. B. Pant: The question of the agreement of Government does not come in at all. There was an arrangement between the workmen and the Undertaking and they agreed to refer the matter to the Mayor. The Mayor declined to intervene. So, there the matter ended.

Shri Tangamani: May I know whether it is not a fact that one of the demands of the workmen is that road-worthy buses are not put on the roads so that accidents are likely and break-downs are more frequent? If so, what steps have been taken to rectify that?

Shri G. B. Pant: I do not think that the present trouble is due to the refusal of any request. It arose out of departmental proceedings taken by the Undertaking against four persons—three drivers, I think, and one conductor. That was at the root of the trouble. Instead of allowing the departmental proceedings to proceed, an agitation was started over it and large numbers absented themselves. Then there was a sort of a strike. Then the Undertaking, I understand, charge-sheeted some of the people who had absented themselves. After that they agreed to refer the matter regarding these proceedings to the Mayor. The Mayor, however, refused to intervene. Now, I think, while these disciplinary proceedings are going on against the four persons, nothing else is being done just at present.

प्राचीन मूर्तियों का अनधिकृत निर्यात

*७८ { श्री प्र० च० बरूआ :
श्री प्रकाश वीर शास्त्री :
श्री रामेश्वर टांडिया

क्या बैज्ञानिक अनुसंधान और सांस्कृतिक कार्य मंत्री यह बताने की कृपा करेंगे कि

(क) क्या ऐसे व्यक्तियों का एक गिरोह दिल्ली में पकड़ा गया है जो मध्य प्रदेश में कुछ स्थानों से पुरानी मूर्तियों का चुराकर बाहर भेजते हैं,

(ख) उनके पास में कितनी मूर्तियाँ मिली हैं और वे कितनी-कितनी स्थानों में चुराई गई हैं;

(ग) क्या इसी प्रकार कुछ समय पूर्व खजुराहो से भी कुछ मूर्तियाँ चुराई गई थीं जो बम्बई में बरामद हुई थीं; और

(घ) इसको रोकने के लिये सरकार द्वारा क्या उपाय किये जा रहे हैं ?

बैज्ञानिक अनुसंधान और सांस्कृतिक कार्य मंत्री (श्री हुमायून् कबिर) : (क) इस सिलसिले में दो व्यक्ति गिरफ्तार किये गये और मामले की छीनबीन हो रही है।

(ख) ऐसा मालूम हुआ है कि दिल्ली में करीब ६८ मूर्तियाँ बरामद हुई हैं। वे कहा की हैं, इसका ठीक ठीक पता नहीं लगा।

(ग) चोरी की कुछ मूर्तियाँ मध्य-प्रदेश में बरामद हुई हैं।

(घ) यह सिफारिश की गई है कि चुर्गी अधिकारी और राज्य सरकारों नियंत्रण को और कड़ा कर दे। केन्द्रीय और राज्यों के पुरात्व विभागों से कहा गया है कि वे ज्यादा निगरानी रखें और जहाँ भी सम्भव हो, वहाँ इधर उधर पड़ी हुई प्राचीन चीजों का सम्बन्धों में पहचान दें।

Shri P. C. Borooah: Do the Government intend trading in surplus archaeological remains and earn foreign exchange thereby, specially from the sites to be covered by dams and such other projects?

Shri Humayun Kabir: There are definite rules under which antiquities which are of a unique nature and specially valuable are not allowed to be exported. Otherwise, if there is a certificate from the Director-General of Archaeology and other competent authorities that these antiquities are not unique, we do allow export under certain conditions and thus do earn some foreign exchange.

श्री ज० सा० द्विवेदी मैं मंत्री महोदय से पूछना चाहता हूँ कि जिन लीगो को पकड़ा गया है क्या वे मुन्दरनगर की फर्म वाले ही हैं या दूसरे के हैं ? इस घटना को हुए लगभग महीने भर से ज्यादा होगया तो यह अभी तक पता क्यों नहीं चल सका कि यह जो मूर्तियां तोड़ी गईं वह जैन मदिरो की हैं, खजुराहो की हैं या दूसरे स्थानो की हैं ? मंत्री महोदय इस पर प्रकाश डाले ?

Shri Humayun Kabir: The heads only are cut off and they are very largely stylised so that by simply looking at a plaque it is difficult even for an expert to say whether a particular head has been brought from Deogarh or from Khajuraho or from any other place. Regarding the first part of the question, I may state that two arrests took place on the 15th September and the matter is under investigation. This is a police case in which we do not come in.

Shri A. M. Tariq: May I know from the hon. Minister whether he is aware that very recently an ancient piece was taken into custody by the Police at Amritsar? Has Government any information as to who is responsible for taking that monument from a temple? Is it also a fact that some of the custodians of these temples are responsible for removing these things from the temples? If so, what Government propose to do?

Shri Humayun Kabir: The question can be divided into three parts. The first part is about scattered antiquities here and there. If they are in unprotected monuments, there is nothing in law to prevent anybody from picking them up. We cannot possibly protect everything throughout India. Protected monuments, of course, come under a different category. If anything is removed from protected monuments, we immediately take action. I am not aware of this particular case in Amritsar. Very strict instructions have been issued to the Customs authorities and

police authorities to see that pilferage or vandalism does not take place. Without local support, such vandalism cannot take place. That is also a feature which I have to point out. In the last meeting of the Central Board of Archaeology, I appealed to all members, particularly Members of Parliament to create public opinion in this respect.

Shri Supakar: Is it possible or has it been practicable to have constant guards in these areas which are of vital importance as places of archaeological importance?

Shri Humayun Kabir: Some measures have been taken. Additional chowkidars have been sanctioned for all monuments of national importance. In addition, wherever there have been pilferages of this kind, we have drawn the attention of the State Governments. Most of these have been in the U.P. and M.P. I have written personally to the Chief Ministers of the States. I believe the hon. Home Minister also wrote to the Chief Ministers and they are taking action.

Shri Assar: May I know whether it is a fact that some important statues and monuments including the tiger nails of Chatrapathi Sivaji Maharaj are missing from the Prince of Wales Museum in Bombay and if so whether anybody has been held responsible and action taken against him?

Shri Humayun Kabir: I have no information about anything missing from the Prince of Wales Museum in Bombay.

Shri Panigrahi: The hon. Minister said that the Government cannot protect everything. Whereas all kinds of monuments are being protected in Delhi, some of the best monuments in other parts of India are not being protected. What is the criterion which has been laid down for the protection of monuments?

Shri Humayun Kabir: It is not a fact that everything in Delhi is being protected. If the hon. Member will take the trouble of walking about in Delhi, he will find many monuments which are not protected. I also deny the suggestion that important monuments in any other part of India are not protected. Every important monument, to the limit of our ability, is being protected. We are taking new monuments under protection if a case is made out.

Mr. Speaker: Next question.

Shri M. L. Dwivedi: One small question, Sir.

Mr. Speaker: No.

Shri M. L. Dwivedi: A small question.

Mr. Speaker: This is a long question.

Shri M. L. Dwivedi: This is a very important question.

Mr. Speaker: The hon. Member will bring it to the notice of the Government.

श्री म० ल० द्विवेदी मैं यह जानना चाहता हूँ कि क्या कुछ स्थानीय लोग भी इस सम्बन्ध में पकड़े गए ?

अव्यक्त सहोदय सारे हिन्दुस्तान में बहुत सी मूर्तियाँ हैं क्या करे ।

Shri M. L. Dwivedi: He said that pilferages cannot take place without the help of local people. I want to know if any such persons have been apprehended.

Mr. Speaker: The hon. Member wants to make a suggestion to the hon. Minister that local committees should be appointed to protect them?

Shri M. L. Dwivedi: I do not want to make a suggestion while asking a question. If an arrangement is made that some persons, officers go there and remain there, pilferages cannot take place. I want to know whether

any local people have been apprehended.

Shri Humayun Kabir: In the case of protected monuments, there are people on duty. Recently we have been taking measures to see if the local village heads may be made responsible for the monuments within their area. Without local co-operation, statues cannot be removed and therefore I have said that in some cases big things were removed as in Khajuraho with local support.

Iron Ore for Rourkela Steel Plant

*79. **Shri Panigrahi:** Will the Minister of Steel, Mines and Fuel be pleased to state

(a) the monthly requirements of iron ore for Rourkela Steel Plant,

(b) the different areas from which Rourkela Steel Plant is getting its requirements of iron ore at present,

(c) whether the Barsua Mine is meeting any portion of the Plant's requirements,

(d) the total estimated cost for mechanising the Barsua Mines, and

(e) the countries from which mining machinery and equipment have been imported for this Mine?

The Minister of Steel, Mines and Fuel (Sardar Swaran Singh): (a) The present monthly requirements of iron ore are about 40,000 tons.

(b) Supplies are at present being obtained from Gua Region.

(c) No, not at present.

(d) The cost of mechanising the mine is estimated at Rs 65 crores.

(e) The USA, Canada and the UK.

Shri Panigrahi: May I know which are the private firms which are at present meeting the requirements of iron ore to the Rourkela steel plants?

Sardar Swaran Singh: We have placed an order with the State Trading Corporation and they are getting it from different mines in the Gua region

Shri Panigrahi: May I know whether the Minister is aware that the State Trading Corporation is having all its requirements from only one firm, Bird & Co and not all the mining interests?

Sardar Swaran Singh: I could not say which are the particular firms from which the State Trading Corporation have arranged supplies. Presumably it is for the State Trading Corporation to select its source and at the best possible terms.

Shri Supakar: What is the cost of transport of the iron ore from the Gua region to the Rourkela steel plant?

Sardar Swaran Singh: I am afraid I have not got the figure. If separate question is tabled, I can collect the information.

Shri Ansar Harvani: May I know what commission the State Trading Corporation is earning by way of getting supplies from the mines and giving it to the Rourkela steel plant?

Mr. Speaker: The State Trading Corporation is a corporate body, an autonomous one. I won't allow questions relating to such details as the commission it gets.

Shri Ansar Harvani: It is only information as to what commission it is getting. If we get it directly from the mines, we will not have to pay commission.

Mr. Speaker: All that may be all right. Hon. Members must have been more careful. Let them bring an amendment and scrap the State Trading Corporation if they are not satisfied.

Some Hon. Members: No, no.

Mr. Speaker: There are differences of opinion. I am not going to allow questions relating to such minute details.

Shri Vinya Charan Sankha: May I know what is the specific reason because of which the Barsua mines could not be ready in time to supply iron ore to the Rourkela Steel plant?

Sardar Swaran Singh: Delay in the necessary equipment being erected in time.

Shri Surendranath Dwivedy: May I know when the Barsua mine would be ready?

Sardar Swaran Singh: It is expected that it will be ready within a few months, may be by March or April, or even a little earlier in 1960.

Shri T. B. Vittal Rao: The hon. Minister said that the equipment is already there. Where is the delay in installing the equipment?

Sardar Swaran Singh: When did I say that the equipment is there? Even if the equipment is there, it takes time for their installation. The hon. Member is familiar with development of mines and the work that is required. There are the civil works, there is the ore-handling plant. A number of things have to be undertaken. As indicated earlier, the total cost is Rs 65 crores. It is not putting a ladder or something.

Shri Achar:

Will the Minister of Home Affairs be pleased to refer to the statement

of the Prime Minister made on the 11th September, 1959, during press conference and state at what stage is the question of bifurcating Bombay State?

The Minister of Home Affairs (Shri G. B. Pant): The matter has not yet come before Government officially

Shri Ram Krishan Gupta: May I know the time by which the final decision in this regard will be taken and separate Gujarat and Maharashtra States will be formed?

Mr. Speaker: The matter has not yet come before the Government at all

Shri G. B. Pant: When the time is mature and opportune for it

Mr. Speaker: Next question

A number of hon. Members rose—

Shri Vajpayee: This is an important question

Mr. Speaker. Hon Members are aware of the constitutional procedure They must make a move Then it will come to the Government here They will take a decision The hon Minister has said that no such thing has come up to the Government

Shri M. L. Dwivedi: The hon Prime Minister has made statements in this connection on several occasions

Shri Nath Pai: May I bring to the notice of the hon Home Minister that there are authoritatively revealed reports saying that the Bombay Government is going to introduce a Bill regarding the bifurcation of this State scheduled for this session and secondly, that the Bombay Government have already appointed two committees for division of personnel and assets of the State May I know whether the hon. Minister would make a statement regarding these two, which are official statements from the Government of Bombay?

Mr. Speaker: The hon. Member is giving information. It is not a question.

Shri Nath Pai: This could not have been done without the sanction of the Home Minister

Mr. Speaker: Order, order. What is the object of this? The hon. Minister will see that a number of hon. Members are interested in it. If he has any more information to give, he will give Otherwise, I will proceed to the next question

Shri G. B. Pant: If questions are put, I will answer them.

Shri Surendranath Dwivedy: This is the question whether on this matter there was any discussion between the Government of Bombay and the Government of India

Mr. Speaker: I wish to suggest this There are a number of questions I am not able to proceed with them Hon Members seem to be very anxious They will pass on chits containing the supplementaries that they want to ask I will pass them on to the hon Minister He will make a statement tomorrow

Shri M. L. Dwivedi: When the Home Minister is prepared to answer, let us put the supplementary questions

Mr. Speaker: All the supplementaries will take away the whole hour

Shri M. L. Dwivedi: Two or three may be allowed

Shri Naushir Bharucha: I want to have information on only one point.

Mr. Speaker: Will the hon. Minister answer Shri Nath Pai's question?

Shri M. L. Dwivedi: I have one supplementary.

Shri G. B. Pant: Well, Shri Nath Pai said that he had received authoritative information to the effect that

the Bombay Government had taken certain steps. So, if he has received authoritative information, it must be correct.

Shri Khadilkar: What stage has now been reached in the process of the bifurcation of Bombay State?

Shri G. B. Pant: The Government has not yet taken up the matter.

Shri Naushir Bharucha: May I know whether the information given by the press, namely that a Bill to amend the States Reorganisation Act will be introduced in Parliament in mid-December, is correct?

Shri G. B. Pant: The Government has not taken any decision to that effect yet.

Shri B. C. Kamble. May I know when the Government proposes to take up this matter? Or, is Government not proposing to take up this matter at all?

Shri G. B. Pant: Government hopes it will be able to take up this matter in due course.

श्री म० ला० द्विवेदी इस सम्बन्ध में प्रधान मंत्री महादय ने दो एक बार बयान दिए हैं, जिससे कई बाना पर प्रकाश पडता है। क्या गृहमंत्री जी का प्रश्न मंत्री जी को बक्तव्यो का ध्यान है और यदि है, तो इस सम्बन्ध में वह क्या कह सकने है?

श्री गो० ब० पन्त जाकुछ प्रश्न मंत्री जी ने कहा है, वह शब्दश सत्य है।

Shri P. R. Patel: May I know whether a nine-man committee was appointed with the hon Home Minister as one of the members, and may I know what matter was considered by this nine-man committee?

Shri G. B. Pant: The nine-man committee has been studying the question of the reorganisation of the present bilingual State in all its aspects with the connected issues.

(b) if so, whether the Committee has submitted its report, and

(c) if so, the main recommendations thereof?

The Minister of Defence (Shri Krishna Menon): (a) Yes, Sir

(b) and (c) Do not arise, as the orders appointing the Committee have just been issued.

Shri Ram Krishan Gupta: May I know the details of the Central Pay Commission's recommendations which will affect the armed forces?

Mr. Speaker: How can that question be put here?

Shri Krishna Menon: None of the recommendations will affect the armed forces because the combatants and enrolled non-combatants of the defence services are outside the scope of the Pay Commission. That is why this committee has been appointed.

Shri S. M. Banerjee: Since the answer to (a) is yes, may I know the composition of this Committee? Who will be the Chairman of this Committee, and who are the members?

Shri Krishna Menon: The Committee will consist of the representatives of the Ministry of Defence and the Ministry of Finance (Defence), Army Headquarters, Naval Headquarters

and Air Headquarters The Chairman of the Committee will the Deputy Minister of Defence, Shri Raghuramaiah

Shri Ajit Singh Sarhadi: May I just ask what is the position of the third category in the armed forces, like ASC, EME, ordnances etc?

Shri Krishna Menon: This will apply to all enrolled non-combatants and combatants in the defence services This will apply to all those Government employees in the Defence Ministry who are not covered by the Pay Commission

Shri S M. Banerjee: Since the reply is "Yes" and the Committee has been appointed only after the submission of the Pay Commission's report, should I take it that the Pay Commission's report has been culculated to the Defence Ministry and considered?

Shri Krishna Menon: No, Sir While it is true that this Committee has been appointed only now, for the last six months or so there has been a study group considering these matters I am not in a position to say whether the Defence Ministry has fully considered the report of the Pay Commission That will be a matter for this Committee

Shri S M Banerjee: I want to know whether the present Committee will only consider the wages or the working conditions also of the armed forces people?

Shri Krishna Menon: The terms of reference of this Committee will be to consider the application of the Jagannatha Das Commission's recommendations to combatants and enrolled non-combatants of the defence services In making their recommendations the Committee will be required to take into account the historical background of the present pay structure and other conditions of service of combatants and enrolled non-combatants of the defence services, the peculiarities of defence in the armed forces and the consequences thereof and other relevant factors

In phase I of its work, the Committee will frame its recommendations in the manner in which such of the recommendations of the Pay Commission which have obvious and immediate impact on combatants and enrolled non-combatants of the defence services should be applied to such personnel In phase II the Committee will apply itself to those recommendations of the Pay Commission which have an impact on the defence services, but the adaptation of which would require some further examination because of the peculiar features of the service of defence service personnel

If, in addition to that, any other new problems should arise, Government will consider referring those problems to this Committee

Shri D C Sharma: Has any time limit been set for the submission of the report by this Committee, and may I know whether their recommendations, whatever they be, will have retrospective effect?

Shri Krishna Menon: No time limit has been set up but the general idea is that the recommendations should be capable of being implemented simultaneously almost at the same time as the application of the recommendations of the Pay Commission

Will the Minister of Steel, Mines and Fuel be pleased to refer to the

reply given to Starred Question No. 306 on the 13th August, 1959 and state.

(a) whether any decision has been taken on the possibility of entrusting the work of preparation of the detailed project report for the proposed Alloy and Tool Steel Plant to an Indian firm,

(b) if so, the details thereof,

(c) when the report is expected to be received from the firm, and

(d) the amount to be paid to the firm for preparation of the project report?

The Minister of Steel, Mines and Fuel (Sardar Swaran Singh): (a) and (b) Yes, Sir An Indian (Private) Limited firm of Consulting Engineers has been selected for the preparation of the detailed project report as well as the subsequent detailed designing of the plant

(c) By June 1960

(d) The firm is to be paid a total of Rs 59 60 000 for the preparation of the detailed project report as well as for subsequent services as Consulting Engineers

Shri R. C Majhi: What is the proposed annual installed capacity of this plant?

Sardar Swaran Singh: Initially 40,000 tons in ingots, with arrangements that it should be capable of expansion up to 80 000— maybe even in the initial stages

Shri R. C Majhi: May I know where this project will be located?

Sardar Swaran Singh: A decision will be taken after the receipt of the detailed project report

Shri Tangamam: How long will it take for this plant to be erected after the project report is received in June 1960, any approximate idea?

Sardar Swaran Singh: It might take anywhere from 2½ to 3 years— 30 to 36 months.

Shri Basappa: May I know whether this Indian consultant was a member of the committee constituted to examine this project report and this very member is now appointed as a consultant?

Sardar Swaran Singh: I do not know what the hon Member means by a committee for examining the project report. The information that I have given is that a detailed project report is to be prepared. So, there could not be a committee to examine the project report when the project report itself is not there.

Shri Basappa: I just wanted to know whether one or two foreign consultants were required to furnish a project report for the very scheme, and their report was considered by a committee and whether this present Indian consultant was a member thereof.

Sardar Swaran Singh: I think I should give the information because the question as framed perhaps is not quite happy.

The fact is that we were negotiating the Government of India was negotiating, with certain foreign firms about the preparation of detailed project reports and service as consulting engineers and one of the proprietors of the present firm was an expert whom Government had co opted for carrying on these negotiations, but in the course of the negotiations it was discovered that an Indian firm could be encouraged, and we took a decision ultimately to entrust it to this Indian firm.

Shri Vidya Charan Shukla: Is this Indian firm of consulting engineers entrusted with the job of recommending a proper site for this special alloy steel plant?

Sardar Swaran Singh: No. The firm will recommend one out of three or four possible sites.

Shri Tangamani: May I know whether it is a fact that the Planning Commission have suggested a higher capacity, and if so, the reaction of the Ministry thereto?

Sardar Swaran Singh: I have already said that in the initial stages it will be 40,000 tons a year, in terms of ingots, with provision to rapidly expand it to 80,000 tons a year. So far as the future requirements are concerned, they are still being examined, and it is quite likely that the ultimate capacity may have to be even higher. Whether it will be at the same plant or at a different place is a separate issue.

Pandit D. N. Tiwary: May I know whether Government have received requests from the State Governments to instal this plant in their States, and if so, from which States?

Sardar Swaran Singh: No, there is no specific request, except the natural desire that the project may be located in this or that State, no request as such has come, except that the Mysore Government have been writing for some time that this could be located at Bhadravati. All these matters will be carefully gone into, after the detailed project report is prepared.

Shrimati Renu Chakravartty: Our experience in the past about our steel mills has been that whenever the actual capacity has not been fixed upon correctly, we have had difficulties. So, I would like to know whether this project report is going to be worked out on the basis of the capacity indicated by the hon. Minister, or whether before the actual work on the project report begins, a final capacity beyond 80,000 tons will also be considered.

Sardar Swaran Singh: I am afraid I have not been able to follow the hon. Member. The information that I have given is that on those capacities the project report will be prepared.

Shrimati Renu Chakravartty: So, we are to take it that this project report is going to be based only on 40,000 to 80,000 tons a year.

Sardar Swaran Singh: No, I have not said so. I said that this project report would be on this basis, and we would also see that there is provision

for expansion, and the lay-out and the general services are organised in such a way that it is capable of expansion even further.

(b) whether any attempt has been made to see whether manufacture on a commercial basis by this method is practicable, and

(c) if so, the results thereof?

The Minister of Scientific Research and Cultural Affairs (Shri Humayun Kabir): (a) and (b) Yes, Sir

(c) The National Research Development Corporation of India is taking necessary steps for its commercial development.

Shri S. C. Samanta: May I know whether this material is imported at present and if so, how the price of the imported stuff would compare with that to be produced here?

Shri Humayun Kabir: According to figures available with me, 17 cwt were imported in 1957, and 24 cwt in 1958. The average price of the imported manganese dioxide, excluding natural manganese dioxide ranges from Rs 3,500 to Rs 4,500 per ton. We expect that the estimated cost by our process will be something like Rs 650 per ton.

Will the Minister of Steel, Mines and Fuel be pleased to refer to the reply given to Starred Question No 847 on the 27th August, 1959 and state:

(a) whether small blast furnaces and converters have been established on an experimental measure,

(b) if so, where, and

(c) if not, what progress has been made in the matter?

The Minister of Steel, Mines and Fuel (Sardar Swaran Singh): (a) Two furnaces for making iron and one converter for making steel have been permitted to be put up. Proposals for two other furnaces and 3 other converters are under consideration. It is the intention to permit some more furnaces and converters. Towards this end, out of the target for steel in the Third Plan, it is proposed to set apart about 250,000 tons for manufacture in small units.

(b) and (c) The two furnaces for manufacture of iron which have been licensed and are already in operation are in the States of Orissa and Madras. The converter—a hot-blast cupola—is being put up in Bombay. Besides these, the National Metallurgical Laboratory has already put up a low-shaft furnace where experiments are being carried out and a small converter for making steel is under construction.

Shri S. C. Samanta: May I know whether any attempt will be made to construct such blast furnaces by the side of the big blast furnaces, that is, in places nearabout the big blast furnaces?

Sardar Swaran Singh: I do not think that that would be really economic, because so far as the economics of an integrated steel plant is concerned, the furnaces have to be of a fairly large size. The intention is that these might be at places other than those where the integrated steel plants are located.

Shri Narasimhan: Has the Madras Government or any private party from Madras offered to start furnaces of this type in Salem, and if so, what consideration are Government giving to the same?

Sardar Swaran Singh: I have already said that one such furnace is already working in the State of Madras.

Shri Narasimhan. I am referring to Salem.

Sardar Swaran Singh. I would require separate notice, to check that up.

Shri Narasimhan: May I know whether the machinery for these types of furnaces is going to be manufactured in India, and if so, what arrangements have been made for the same?

Sardar Swaran Singh: Let us hope so. It is one of our objectives to be able to manufacture our machinery requirements in the country. The hon Member is aware that a heavy machine-making plant and a forge and a foundry are going to be installed at Ranchi.

Shri Tangamani: May I know the present installed capacity of the blast furnace which has been set up in Madras, and the maximum capacity of these blast furnaces according to this plan?

Sardar Swaran Singh: I am speaking from memory, when I say that it is about 15,000 tons a year. And the intention is not to encourage large ones, because the development of iron and steel is essentially in the public sector. As for these small ones, they are intended particularly to meet the

local requirements and to utilise ores which are away from the main coal-iron-ore belt, it is there that these smaller furnaces are encouraged

Shri Sarendramath Dwivedy: May I know whether Government consider it proper to leave all the small furnaces to the private sector or whether there is any proposal to start any of these small furnaces in the public sector?

Sardar Swaran Singh: At the moment, if the expansion in the public sector is visualised, it should be really in the sphere of larger furnaces rather than small ones, because the economics of those is better

Shri N R. Muniswamy: May I know the total estimated cost of the furnaces and converters that have been established up till now, and of the converters to be established hereafter?

Sardar Swaran Singh: I am afraid that would mean going into the realms of the future which is not quite clear to me. The number that is going to be installed hereafter will depend upon the decision that is taken, that is whether to start one, two, three or four

So far as the cost or the expenditure that has been incurred on the two furnaces, one in Madras and the other in Orissa, which are both in the private sector, is concerned, I think they started with about Rs 50 lakhs or so, but I think the actual expenditure that has been incurred is much more, it is nearer Rs 1 crore than Rs 50 lakhs

Shri Yajnik: May I know whether Government intend to promote any industrial co-operative societies in rural as well as urban areas to make pig iron and steel at different places in the country?

Sardar Swaran Singh: Government would like to encourage co-operative societies for any industrial venture and it is really the initiative that is shown by any co-operative society

that will answer the question which the hon Member has asked.

Shri Narasimhan: In *The Times of India* dated the 14th September, under a big headline about the low-shaft furnace going into operation, this news appeared

"Mr B Patnaik of the Kalinga Industries Ltd told newsmen in Calcutta the other day that 95 per cent of their next plant to be set up at Salem in Madras would be fabricated by Indian engineers at Barbil"

Can Government throw any light on it?

Sardar Swaran Singh: Throw light on what? The hon Member himself is already giving some information

Shri Narasimhan: I want to know whether that is true, and whether Government have been approached for any permission for this

Sardar Swaran Singh: I had already asked for notice. If I had had this information I would certainly have given it

Shri Panigrahi: May I know whether the hon Minister is aware that at present the cost of production of iron in the blast furnace in Barbil in Orissa is higher than that in the larger steel plants, and if so, whether he is aware that the small blast furnace is not proving successful?

Sardar Swaran Singh: It will be difficult for me to commit Government to any figure, but if the cost of production in a smaller blast furnace is higher, that is not unexpected as to what is the quantum of that excess, I would not like to commit myself

Shri S. C. Samanta: Last time, we were informed that the construction and design of some blast furnaces would be taken up on an experimental basis. May I know whether this experimental stage is passed and Government have taken a decision?

Sardar Swaran Singh: Yes, I still say that the construction and designing of blast furnaces should be undertaken. We are not yet sufficiently organised to undertake that work. We have started a nucleus of designs organisation, but it is premature for me to say that every new blast furnace that is going to be installed either in the public, or in the private sector, would be designed by our own experts.

Will the Minister of Home Affairs be pleased to state

(a) whether the Union Home Ministry has issued a circular to its employees warning them against any failure to look after the proper maintenance of their families

(b) whether this circular states that departmental action will be taken against any Government servant who neglects his wife and family,

(c) if so, the circumstances or facts which suggested recourse to the above steps, and

(d) the reponse to these instructions?

The Minister of State in the Ministry of Home Affairs (Shri Datar): (a) to (c) Yes. A copy of the relevant order is laid on the Table of the House [See Appendix I annexure No 37]

(d) This Ministry has no information.

Shri Vajpayee: May I know the number of complaints against Government servants for failure to look after their families and whether the Government had tried to ascertain the causes for this failure?

Shri Datar: Certain instances had come to the notice of the Government that the family and wife were being

neglected. Therefore, Government considered it advisable to examine the whole question and issue this Office Memorandum.

Shri Vajpayee: In view of the fact that women enjoy equal rights with men and it is open for them to go to a court of law if they are badly treated, may I know why the Government thought it proper to interfere in a sphere which is strictly personal and private?

Shri Datar: This Memorandum has pointed out that in such cases, the Government servants would be acting in a manner unbecoming of a Government servant. If necessary, Government thought, some rules should be made and therefore, this permissive rule has been made.

Shri Nath Pai: Is it not a fact that the alleged neglect of families by Government employees is the result, not so much of callousness on their part but, of inadequate pay, poor living conditions and poor amenities given by the Ministry?

Shri Datar: No, Sir

Shri Vidya Charan Shukla: What is the standard by which the Government is going to judge whether a Government servant has acted in an unbecoming manner? Is it not a fact that this might be used to harass and arbitrarily punish the Government servant by a superior officer?

Shri Datar: In such cases the usual procedure will be followed and it will not involve any harassment of persons who have not acted improperly.

Shri C K. Bhattacharya: May I know whether the Government recognise any obligation on the part of the Government servants to support their parents?

Shri Datar: That is a larger question but here we are considering the question of wife and family—dependent members.

Shri C K. Bhattacharya: Is it the opinion of the Government that parents are not dependent on their sons?

251(A) LSD—2

Shri Datar: May I point out to the hon. Member that there is a legal obligation and there is a moral obligation? In this case it is a legal obligation—not to neglect the family and one's wife. So far as parents are concerned, under the ordinary law of the land, it is a moral duty, except when there is some property.

Shri C. K. Bhattacharya: In our law as it is, will he kindly enlighten us whether there is a legal obligation to support one's parents?

Shri Datar: I did not follow.
(Interruptions)

Mr. Speaker: He only wants to know if it has been made obligatory in the recent legislation enacted that a son should maintain his parents who are not able to maintain themselves.

Shri Datar: He knows the recent law and I need not expatiate on the law.

Mr. Speaker: Very well. Hon. Members will look into the law.

दिल्ली अध्यापक संघ

*८६. पं० डा० ना० तिवारी क्या शिक्षा मंत्री यह बताने की कृपा करेंगे कि:

(क) क्या दिल्ली अध्यापक संघ ने यह मांग की है कि प्राथमिक और माध्यमिक शिक्षा की देखभाल के लिए एक परामर्शदात्री समिति बनाई जाय, और

(ख) यदि हा, तो इस सम्बन्ध में सरकार की क्या प्रतिक्रिया हुई है?

The Minister of Education (Dr K. L. Shrimall): (a) Yes, Sir.

(b) The matter is under consideration.

Pandit D. N. Tiwari: If any committee is formed what will be its position and functions? May I know whether any decision will be taken about that?

Dr. K. L. Shrimall: The Delhi Teachers' Association has suggested that the Government should constitute a consultative committee which would advise the Delhi Administration both in the field of primary and secondary education. Since the matter is still under the consideration of the Government, I could not say what its functions will be or how it will function.

Pandit D. N. Tiwari: What were the circumstances that necessitated the passing of this resolution from the Teachers' Association?

Dr. K. L. Shrimall: This demand was made.

"To give the teacher a proper place in the educational set-up, it is essential to remove excessive control and interference in his work from above. An advisory board of educationists is to be set up to look after elementary and secondary education in Delhi. This advisory board should consider first all changes that have to be effected in matters relating to the pattern of education, transfer of schools or teachers, admission problems, etc."

श्री जगदीश श्रवस्ती: जैसा कि मंत्री महोदय को मालूम है कि शिक्षा मन्त्रालय महोदय ने दिल्ली में एक परिषद के द्वारा कुछ संस्कारों शिक्षा मन्त्रालय के शिक्षकों को दिल्ली के शिक्षक मण्डल के सदस्य बनने पर प्रतिबन्ध लगा दिया है जब कि यह मण्डल प्रकार के शिक्षकों का एक सर्वमान्य सन्ध्या है और १६ सालों से बराबर इसके सदस्य रहे हैं तो क्या वह प्रतिबन्ध अब भी लागू है और यदि लागू है तो उन्का क्या प्रतिक्रिया है और क्या संस्कार उसको हटाने पर विचार कर रही है ?

डा० का० ला० श्रीमाली: यह प्रश्न इसने से नहीं उठता। यदि आप अलग प्रश्न पूछें तो मैं उत्तर दूंगा।

Shri Radha Raman: In view of the earlier announcement of the Ministry of Education that in Delhi education has suffered considerably in recent years, may I know whether the appointment of a consultative or advisory committee as suggested by the Delhi Teachers' Association was not a good step and whether any early action in the matter is contemplated by the Government?

Dr. K. L. Shrimall: The hon. Member is aware that there is already an advisory committee presided over by the Home Minister and it advises the Government on problems of education. The question to be examined is whether it is necessary to have an additional committee and whether those functions are not being discharged by this advisory committee already in existence. After this examination we would be able to take a final decision and it may not take too long.

Decline in the Value of Indian Currency

†

*90 { **Shri L Achaw Singh:**
Shri Panigrahi:
Shri M. B. Thakore:
Dr Ram Subhag Singh:

Will the Minister of Finance be pleased to state whether it is a fact that the internal value of the Indian Currency has declined by 29 per cent as stated by the Reserve Bank Governor in his address to the institute of Bankers?

The Minister of Finance (Shri Morarji Desai): Yes, measured on the basis of general index of wholesale prices, the internal value of the rupee has declined by 29 per cent since 1947-48.

Shri L Achaw Singh: May I know whether there has been any demand for devaluing the Indian rupee from any quarter?

Shri Morarji Desai: There may be some demand from some unthinking quarters.

Shri Bimal Ghose: May I know whether this decline in the value of the currency has adversely affected our exports and if so whether any remedial measures are proposed to be taken?

Shri Morarji Desai: Some decline is unavoidable in a rising economy but in this particular case our decline is not more than that in several other countries; it is much less. I may give some figures in this connection about the annual decline in terms of internal purchasing power between 1948 and 1958 and the annual rate of depreciation in the foreign countries:

France	6.8	per cent
Japan	4.5	"
U.K.	4.3	"
South Africa	3.9	"
Canada	2.5	"
U.S.A.	1.8	"
West Germany	1.7	"
India	1.7	"

In a number of Latin American countries it amounts to from 13 to 38 per cent. So, this rate is much better than for the other currencies.

Shri Bimal Ghose: That was not the question.

Mr. Speaker: The hon. Member only wants to know if any steps are taken by the Government.

Shri Bimal Ghose: My question is whether the hon. Finance Minister feels that it has adversely affected our exports.

Shri Morarji Desai: No, Sir. It may affect just a little. In exports it would affect a little, but compared with other currencies also ours has not gone down more; therefore, it does not affect more.

Shri Bimal Ghose: Does he mean to say that it has not affected at all?

Mr. Speaker: Not sufficiently for the Government to interfere and take action.

Shri C. D. Pande: May I know from the hon. Finance Minister whether during his recent visit to the States, the United Kingdom and other places he noticed any fall in the value of our currency vis-a-vis dollar, sterling and Swiss franc?

Shri Morarji Desai: No, Sir. May I say to the other question also that we are constantly keeping an eye on this, but the best remedy for this is more production all round and that also we are trying to see.

Shri Ranga: Is it not a fact that if Government goes on pumping more and more currency into our circulation inflation is bound to result?

Mr. Speaker: That is normal.

Shri Raghunath Singh rose—

Mr. Speaker: The Question Hour is over.

Shri Raghunath Singh: Sir, I would like to put one important question.

Mr. Speaker: I am sorry, the Question Hour is over.

(a) the total Compassionate Gratuity Fund set apart and awarded in Defence Services in the years 1958 and 1959 up-to-date;

(b) the basis on which this gratuity award was made, and

(c) whether the scheme envisages awards to dependants of officials who died on or after June, 1953?

The Minister of Defence (Shri Krishna Menon): (a) A sum of Rs 4 lakhs was initially provided for payment to the dependants of deceased officers who died on or after the 1st June 1953 but before the 1st April, 1958. In respect of deaths on or after the 1st April 1958, the amount provided for disbursement in each financial year is Rs 1 lakh. The unexpended amount, out of the provision of Rs 1 lakh made each year, will be carried forward to the next year subject to the stipulation that in no case will the budget provision for any one financial year exceed Rs 2 lakhs.

The total amount awarded from the Compassionate Gratuity Fund in the calendar year 1958 was Rs 1,31,800. The amount which has been awarded during the calendar year 1959 up-to-date is Rs 1,35,300.

(b) The grants from the Fund are made on the merits of each case

subject to certain limits and other requirements prescribed by rules, by a Board consisting of the Secretary, Ministry of Defence, the Financial Adviser, Ministry of Finance (Defence) and the Chairman of the Chief of Staff Committee, with the approval of the Defence Minister.

Neyveli Lignite Project

*97. **Shri Narasimhan:** Will the Minister of Steel, Mines and Fuel be pleased to state:

(a) how many bucket belt excavators have been installed in the Neyveli Lignite area so far,

(b) whether all of them are functioning to expectation,

(c) whether any defect has been noticed in their functioning to estimated capacity, and

(d) the rate and quantity of excavatory work that is being done by these machines?

The Minister of Steel, Mines and Fuel (Sardar Swaran Singh): (a) Two, each of 350 litre bucket capacity.

(b) They are still on trial runs.

(c) These excavators have satisfactorily passed the tests in regard to capacity and performance. No defects were noticed.

(d) The rated capacity of these excavators is 920 cubic metres of soil overburden per hour, but during trial runs the average turn-over has been only about 200 cubic metres per hour. The reason for this is that the State Government are yet to make satisfactory arrangements to firm up the voltage of power supplied to the excavators. Installation of boosters is in progress. Besides, experiments are still in progress with regard to the best type of cutting teeth for the bucket wheels to tackle the Cuddalore sandstone.

Limestone in U.P.

173. Shri D. C. Sharma: Will the Minister of Steel, Mines and Fuel be pleased to state:

(a) whether the quantity and quality of the limestone reserves in Dehradun-Mussoorie area of Uttar Pradesh have been assessed; and

(b) if so, the details thereof?

The Minister of Mines and Oil (Shri K. D. Malaviya): (a) and (b). Yes, Sir. The formation which is estimated to contain a quarriable reserve of 403, 759, 700 tons of limestones upto 100 ft. distance along dip occurs in the hills near Sisoli about 8 miles as the crow flies to the east-north-east of Dehra Dun at the one end and runs in a general north-west direction along Sahasradhara, Jud, Kerwan, Oak Grove, Jharipani, Bhatta, Hathipani and upto the Cloud End south of Mussoorie on the other.

The qualitative distribution of the above reserve is as follows:

	Quarriable reserves in tons up to 100 feet distance along dip
A. Average quality limestone in formation (Shales excluded) CaO—45.77% appx. MgO—4.95% appx.	254,497,100
B. Limestone with CaO 50 tons 55%	142,780,800
C. Limestone with CaO above 55%	6,481,800

The figures of qualitative reserves must be regarded as somewhat tentative as the qualitative zones are mainly based on the data obtained at the sampling points. Detailed information is available in the following Geological Survey of India publication, copy of which is available in the Library of Parliament:

"Bulletins of the Geological Survey of India Series A-Economic Geology—No. 16—High grade limestone deposits, Dehra Dun-Mussoorie area, Uttar Pradesh."
