

Title: Reg: Development of tourism sector in Kishanganj district.

DR. MOHAMMAD JAWED (KISHANGANJ): Kishanganj, Parliamentary Constituency in the north-eastern region of Bihar, contains the special ambience of some of the remarkable spots of ancient importance.

Badijaan Durga temple and Venugarh Fort have an aura to attract people from far off places. Spots enriched with scenic biological diversity have Siberian migratory bird and environment friendly strata including Kachuudah lake, Maramandhi lake, Kataramani lake, Odra ghat, Chichodajhar forest and riverfront of Ramzan river under Kishanganj town. There is scope to develop areas under Ramayan/Mahabharat circuit as part of religious tourism.

Despite having the privilege of elegance, beauty and aesthetics, they lack in attracting tourists due to the deprivation faced by the constituency in the development of tourism sector since Independence.

Initiative by Central Government is required to develop the tourism sector of Kishanganj district to help the region grow in all dimensions.
