

Title: Regarding Construction of a 600 m long washing pit for railways in Lalitpur, Uttar Pradesh.-laid

SHRI ANURAG SHARMA (JHANSI): Among the major cities of Bundelkhand, Lalitpur is a major stop for trains. Train which is among the UP-MP interstate border city is facing technical issue due to lack of maintenance system in Lalitpur Railway Station. Request has already been sent to the Divisional Railway Manager (North Central Railway), Jhansi, and General Manager (North Central Railway), Prayagraj in this regard.

To understand the critical situation and running of trains without proper maintenance may cause a delay in the train schedule. I, therefore, request for the construction of a 600 (six hundred) meter long washing pit for railways.
