(b) The transfer of control of these exchanges will enable better coordimation in improving the telephone service as well as execution of future plans for provision of automatic exchanges with facilities for direct dialling between the subscribers in Delhi and these outlying areas.

Shri Bhagwat Jha Azad: As a result of the extension of these facilities, how far will the pressure for having new lines, regarding which a large number is still on the waiting hist be relieved?

Shri B. C. Bhagavati: We are proposing to have 200-line automatic exchanges for these satellite towns. When we instal these exchanges, I think it will give much relief.

...Shri Bhagwat Jha Azad: Against the 200 lines going to be given, what is the number on the waiting list for connections? Is it in terms of thousands?

Shri B. C. Bhagavati: At present, the number on the waiting list in Narela is 51, in Bahadurgarh 92 and in Ballabhgarh 55.

Shri D. N Tiwary: Have the figures just mentioned by the hon. Minister been sanctioned or so many applications have been received?

Shri B C. Bhagavati: So many applications have been received; they are on the waiting list.

Shri D. N. Tiwary: For connection; not the total applications received?

Shri B. C. Bhagavati: Total applications in the waiting list.

Shri D. C. Sharma: In what way has the transfer of the control of these three townships to the Delhi Telephone Exchange added to the efficiency of the service in Delhi which is already low?

Shri B. C. Bhagavati: Under the Master Plan for Delhi, it is envisaged that these areas will be developed on a large scale. Keeping that in view, we have also to plan for tele-communication development in these areas. I am sure the skeps now contemplated will bring about much improvement in future. For the time being, it has been found to be very advantageous for the administration.

Agricultural Production

Shri P. C. Borooah: Shri Shree Narayan Das: Shri P. R. Chakraverti: Shri Ragunath Singh: Shri Eswara Reddy: Shri A. K. Gopalan: Shri Maheswar Naik: Shrimati Savitri Nigam: *834. J Shri P. Venkatasubbaiah: Shri Indrajit Gupta: Shri Bade: Shri Hem Raj: Shri Jashvant Mehta: Shri G Mohanty: Shri Subodh Hansda: Shri D. C. Sharma: Shri S. N. Chaturvedi:

Will the Minister of Food and Agriculture be pleased to state:

(a) whether the final figures for agricultural prduction for 1962-63 are now available;

(b) if so, the figures for important crops; and

(c) how they compare with the figures for the previous year?

The Minister of State in the Ministry of Food and Agriculture (Dr. Ram Subhag Singh): (a) Yes, Sir.

(b) and (c). The figures of production for important crops are:

	1962-63	1961-62
Foodgrains (million tons) Oilseeds (million tons)	77 · 5 6 · 8	79·8 6·8
Sugarcane (million tons in terms of Gur).	9·2	10.0
Jute (million bales)	5.4	6.3
Cotton (million bales)	5.3	4.2

Shri P. C. Borooah: Have States been asked to submit special programmes for boosting up their production during the rest of the Plan period? If so, has Assam reacted to the suggestion? If so, what is the amount they want for implementation of their proposals?

Dr. Ram Subhag Singh: Yes, all the States have submitted their Plans. Assam is also among them. Apart from special schemes for jute, Assam is covered by the Plan allocation, because for jute we have provided additional allocation.

Shri P. C. Borooah: May I know whether the attention of Government has been drawn to the recent statement of the FAO authorities to the effect that if properly exploited, the lower basin of Ganges and Brahmaputra, comprising Assam, Bengal and Bihar, will be able to raise the crop to four times the present figure; if so, what is Government's reaction to it; if favourable, what steps Government have taken to implement it?

Dr. Ram Subbag Singh: The Gangetic plain can give a much larger yield, and that is why we are now going to concentrate on special programmes for jute, vegetables and other things also.

Shri P. Venkatasubbaiah: May I know whether the agricultural production given by the Minister is commensurate with the additional area that has been brought under irrigation: if not what is the reason?

Dr. Ram Subhag Singh: The area that has been brought under irrigation alone does not account for the entire agricultural production. Eighty per cent of Indian acreage is under dry farming, and that largely influences the production figures.

Shrimati Savitri Nigam: May I know if cotton production has gone down, and what special steps have been taken to give an impetus to it so that its production may be up to the mark in the coming year?

Dr. Ram Subhag Singh: It is not correct. Cotton production increased in 1962-63 as compared to 1961-62, and this year it is much better. Shri P. R. Chakraverti: May I know whether Government's attention has been drawn to the remarks made by the Programme Adviser to the Planning Commission that the vield per acre in the beginning of the century was double in some parts of India, especially Madras, because of the traditional manures being used; if so, whether Government is giving more attention to that fact?

Dr. Ram Subhag Singh: It is true that yield in Madras State was better at that time, but now the yield in Madras State has gone still higher.

Shri Jashwant Mohta: Which are the States which are showing improvement in agricultural production, and what steps Government have taken after the last debate to increase agricultural production in those States?

Dr. Ram Subhag Singh: Last year, rice production fell by about 2.7 million tons, and we have therefore planned to give special attention to paddy cultivation, and most of the States that produce paddy are included in that programme. For wheat and millets also, we have included about 70 districts in that programme.

Shri Ranga: In view of the considerable damage that is caused ordinarily 20 per cent but rising up to 50 per cent sometimes—by the pests which affect the various crops like wheat; rice and cereals, do Government propose to give specialpriority for research as well as fieldscale work for fighting these pests?

Dr. Ram Subhag Singh: For fighting the pests in paddy area we have given this time 25 per cent more subsidy, that is, we have increased if from 25 to 50% wherever paddy was having an epidemic type of disease. In regard to cotton, chilly, tobacco etc., wherever concentrated action is needed, we are going to give subsidy to the tune of two-thirds of the entire expenditure. If it is in the nature of

2616

a bigger type of disease, we can bear the entire expenditure, and our aerial **unit can also go there if such** help is sought by the States. So far as research in this field is concerned, we shall concentrate more and more on it and see that more pesticides are manufactured and the prices are also reduced.

Shri Indrajit Gupta: In view of the fact that not only rice production but wheat production also has fallen in 1962-63, has Government tried to ascertain why the yield per acre has continued to be stagnant despite huge amounts spent for intensive cultivation?

Dr. Ram Subhag Singh: It is true that as compared to 1961-62, production of wheat was a little less in 1962-63. As the hon Member knows barring certain areas particularly in Punjab and Western U.P. wheat is entirely a dry crop.

Shri Kapur Singh: I want to know whether at this stage Government are prepared to examine as to how far persistent low agricultural production in the country is ascribable to the new fangled land policies that we are pursuing?

Dr. Ram Subhag Singh: We are constantly examining any genuine difficulties that are brught to our notice.

Shri Kapur Singh: He is talking about difficulties I said something else.

Mr. Speaker: He asked whether they are attributable to land reform policies. They will examine it.

श्री ग्र० प्र० धर्मा : मानीय मंत्री ने अभी यह कहा कि गेंजेटिक वैली पैदावार की दप्टि से बहुत ज्यादा उपयोगी है तो मैं जानना चाहता हूं कि बिहार का गंगा के किनारे का वह हिस्सा जहां सिंचाई का कोई प्रवन्भ नहीं है, वहां के लिये सरकार का क्या कोई इरादा है कि नल कूप ग्रादि जल्द से जल्द जगाने की व्यवस्था करे जिससे कि वहां की पेदावार बढे ? डा० रास सुभग सिंह : गंगा की घाटी में मौर खास कर बिहार का वह हिस्मा जहां से माननीय सदस्य ग्राते हैं, बक्सर से कंइलवर तक करीब १४० नलकूप १९४४ के बाद जगाये गये हैं । उन के म्रलावा कुछ मौर भी नलकूप हाल में लगाये जा रहे हैं । उन के क्षेत्र में भी ७-- मलकूप लगाये गये हैं । सिंचाई की व्यवस्था करने का काम जारी है मौर इख वरीके से घीरे घीरे हर जगह पर, गंगा के दोनों म्रोर, गेंबेटिक वैली के माने हैं नदी तथा उसकी शाखा नदियों के दोनों कूलों की जमीनें, जाहिर है कि यह काम घीरे घीरे उन में बढ़ेगा ।

श्री क॰ ना॰ तिवारी : एग्रीकरूचरच प्रोडव्यान की फीगसं लेने का कौन सा तरीका है ग्रीर इस में ग्राम पंचायत क्या पार्ट ग्रदा करती है ?

डा॰ राम सुभग सिंह : इस के झांकड़ें संग्रह करने का प्रब तक कुछ जगहों पर जो तरीका है वह यह है कि खेत धर्थात् फसज काटी जाती है प्रीर उस को पीट कर जो ग्रनाज मिलता है उस से उस के वजन को रिपोर्ट करते हैं लेकिन यह तरीका मैं ऐसा नहीं मानता कि बिल्कुल शातप्रतिशत सही है ग्रीर हम उस में सुघार करने का यत्न करेंगे ।

Dr. Sarojini Mahishi: Is there any improvement $i_{\rm II}$ the productivity of the soil for commercial $cro_{\rm PS}$ as compared to that of the previous year?

Dr. Ram Subhag Singh: Yes, Sir there is marked improvement particularly in regard to cotton production in irrigated areas of Punjab and virtually every year the per acre yield is going up.

Shri Tyagi: May I know which of the Ministries is primarily responsible for the achievement of plan targets in agricultural production and how these figures which the hon. Minister has quoted compare with plan targets? Dr. Ram Subhag Singh: 'n regard to agricultural production Food and Agriculture Ministry is responsible. The plan target is 100 million tons aud what I have stated is about 80 million tons.

Shri Tyagi: I want commoditywise details

Mr. Speaker: What is contained in other publications, I would not allow them to be read here.

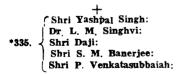

Shrimati Renuka Ray: IIas the Government any plan for apportioning the production of various kinds of agricultural commodities according to the soil and climatic conditions; or, keeping in view the overall shortage of foodgrains, do they feel that each region and each area should be made self-sufficient in foodgrains alone?

Dr. Ram Subhag Singh: As I said in the beginning, taking for instance, paddy production, we shall have to concentrate in regard to the stepping up of the production of paddy only in that type of land where paddy can be profitable grown; so is the case with wheat and other products. We will specialise more and more in that field.

Shrimati Renuka Ray: What about cotton?

Mr. Speaker: Order, order. Next question.

Agricultural Commodities Advisory Committee

Will the Minister of Food and Agriculture be pleased to state:

(a) whether a decision to set up an Agricultural Commodities Advisory Committee has since been arrived at; and

(b) if so, the natuer thereof?

The Minister of State in the Ministry of Food and Agriculture (Dr. Ram Subhag Singh): (a) and (b). No decision has been arrived at on the question of setting up an Agricultural Commodities Advisory Committee.

श्री यशपाल सिंह : इस कमेटी को कब तक कायम करने का ख्याल है ।

डा॰ राम सुभग सिंह : है एक बार पहले इस पर विचार किया गया था । दो बार यह मैटर कैबिनेट में गया और चूंकि कुछ कारणो मे वहां इस पर तसफिया न हो सका, इसलिये इस वक्त फिर इस पर विचार किया जा रहा है और इस को जल्दो कायम किया जायेगा ।

श्री यशपाल सिंह : किसानों से जो आधे दामों पर गल्ला खरीद कर फिर दुगने दामों पर बेचा जाता है, क्या इस पर विचार करने के लिये भी इस कमेटी में कोई प्राविजन रखा गया है ? क्या सरकार के ख्याल में यह कमेटी इस की भी देखभाल करेगी ?

ग्रध्यक्ष महो<mark>वय</mark>ः पहले कमेटी तो बनने दीजिये ।

डा॰ राम सुभग सिंह : जब यह कमेटी वनेगी, तभी इस के बारे में सही उत्तर मै दे सकूंगा । श्रंभी यह समिति नहीं बनी है ।

Shri P. Venkatasubbaiah: May I know whether the Government think it desirable to set up this Committee as early as possible so as to ensure a minimum price for agricultural produce in the country?

Dr. Ram Subhag Singh: Yes, Sir. We shall expedite it.

Import of Steel for Railways

+ *336.∫Shri Umanath: ∫Shri S. M. Banerjee:

Will the Minister of Railways be pleased to state:

(a) whether it is a fact that M|s Mohindra & Mohindra Ltd., Calcutta
