

al convention to end the production of plutonium and other fissile material in the Moscow declaration of January, 1994;

(b) if so, the details thereof and the views expressed by the Government in this regard;

(c) whether in joint statement made by them India has been identified on one among countries posing proliferation of nuclear weapons; and

(d) if so, the reaction of the Government thereto?

THE MINISTER OF STATE IN THE MINISTRY OF EXTERNAL AFFAIRS (SHRI R.L. BHATIA): (a) and (b) The Presidents of the United States of America and the Russian Federation jointly issued the Moscow Declaration on 14 January 1994 which *inter alia* stated that the two Presidents reiterated their support for a cutoff of production of fissile materials for weapons. This proposal is a reiteration of the consensus resolution in the 47th session of the United Nations General Assembly calling for a universal and non-discriminatory Convention for the Cut Off of Fissile Materials for Nuclear Weapons and other explosive devices, which was co-sponsored by 26 countries including USA and India.

(c) and (d) In the Moscow Declaration, the two Presidents made a joint statement on non-proliferation of weapons of mass destruction and their means of delivery in which they urged all countries to accede to the NPT. Both leaders also sought to support efforts to reach agreement on the establishment of a multilateral forum to consider measures in the field of arms control in

non-proliferation that could strengthen security in South Asia. They called on India and Pakistan to join in the negotiation of and become original signatories to the treaty banning nuclear weapons test explosions and the proposed convention to ban production of fissile materials for nuclear explosives and to refrain from deploying ballistic missiles capable of delivering weapons of mass destruction to each others territories. India believes that the declaration and its appeal echoed the objectives outlined in the Action Plan presented by India at the Third Special Session of the UN General Assembly devoted to disarmament in May/June 1988. Government hopes that the objectives of the comprehensive test ban, and initially controlling the production and dissemination of fissile material and ultimately banning its production, should be pursued expeditiously within a specific time frame applicable to all members of the international community. India cannot sign the NPT in its present form because of its discriminatory characteristics. India has called for new international consensus on nuclear non-proliferation.

Power Projects of U.P. and Bihar

3771. SHRI ARJUN SINGH YADAV:

SHRI TEJ NARAYAN SINGH :

Will the Minister of POWER be pleased to state :

(a) the names of ongoing power projects in Uttar Pradesh and Bihar and the estimated power generation capacity thereof;

(b) the target fixed for completion of those projects and the allocation made for each power project; and

(c) the progress made in this regard so far ?

THE MINISTER OF STATE OF THE
MINISTRY OF POWER (SHRI P.V.
RANGAYYA NAIDU) : (a) to (c) Details are
given in the Statement enclosed.

STATEMENT**SANCTIONED/ONGOING HYDRO-ELECTRIC PROJECTS UNDER IMPLEMENTATION IN UTTAR PRADESH**

Sl. No.	Project Name	Capacity (Rs. crores)	Estimated cost (Rs. crores)	Comming. sch.Funds allocation (Rs. crores)	Status
CENTRAL SECTOR					
Sanctioned/Ongoing Schemes					
1.	Dhauliganga (NHPC)	4x70 = 280 MW	601.99 854.79	1998-99 2000-01 39	400 Infrastructure works and preconstruction investigation are in progress. the project is suffering from funds constraint.
JOINT SECTOR					
2.	Tehri St. I	4x250 = 1000 MW	197.2 for (4x150 MW) 2815.0 for (4x250 MW)	1981.82 1997.99	1419.71 288.00 Aid/loan from erstwhile Soviet Union has been cancelled. This project is now proposed to be executed through domestic funding. The project is suffering from funds constraints, rehabilitation of oustees and ban on blasting by the Govt.
3.	Raighat (UP/MP) Lalitpur	3x15 = 45	37.47 102.88	1995-96 1995-97	87.84 50 All civil works have been awarded and are in progress. The penstock have been
