

## Regarding inclusion of Type-1 Diabetes under Insurance coverage

**ADV. ADOOR PRAKASH (ATTINGAL):** I would like to draw the attention of the Government towards the issues being faced by children suffering from Type One diabetes. The number of children with Type One Diabetes is increasing at an alarming rate in our country. Type One Diabetes which is caused by auto immune disorder needs lifelong medication. It affects the physical and mental wellbeing of the children and they definitely deserve special attention and care. It is unfortunate that medical insurance companies are denying insurance coverage for these children. It is totally an injustice to the affected children and their parents. Union Government should consider their issues on priority and take necessary steps to address the same. I request the Government to take a favourable decision in this matter.
