

field level and for evolving new initiatives required for imparting a new thrust and dynamism to the programme.

(b) Based on the deliberations of this meeting, a draft Action Plan has been formulated. The key features of the Draft Action Plan include, (1) evolving a national consensus in support of the Family Welfare Programme and obtaining willing participation of all sections of the society (2) improving the quality and outreach of family Welfare services, (3) special focus on 90 poor performing districts (Birth rate of 39 per thousand population and above as per the 2982 census), (4) developing an innovative package of incentives/disincentives for promotion of the small family norm, (5) increasing the coverage of younger age couple through vigorous promotion of spacing methods, (6) introducing new contraceptives and improving the quality of contraceptives, (7) strengthening Family Welfare schemes in urban areas especially in slum pockets, (8) revitalising training activities of medical/para-medical personnel with emphasis on motivational and counselling aspects, (9) sustaining the good work done under the Universal Immunization Programme and strengthening of other interventions for Maternal and child Health Care, (10) reorientation of information, education and communication efforts to focus on the quality of life issues and interpersonal communication, (11) involving voluntary and non-governmental organisations in a big way to promote active community participation in the programme, (12) gearing up of the implementation machinery in the States/UTs and (13) evolving high level inter-sectoral coordination mechanisms at the National, State and District levels, etc. This Draft Action Plan has now been referred to the States/UTs to give them further opportunity to examine its contents and make suggestions for improvement, keeping in view their own special requirements. It is proposed to finalise the Action Plan over a period of next 2-3 months after a high level

meeting with Health Ministers of States/UTs. It is expected that the Action Plan evolved in this manner would be more practical, realistic and result-oriented and will be able to make a marked impact on the population problem in the country.

Hospital in Sahibganj (Bihar)

1995. SHRI SIMON MARANDI: Will the Minister of RAILWAYS be pleased to state:
