

(c) and (d). There was no restriction on the export of TMP upto and inclusive of 29th June, 1992. However, the export policy was amended on 30th June, 1992 providing for a No Objection Certificate (NOC) from the Administrative Ministry before any export could be undertaken.

The above mentioned consignment is reported to have left the Port without the necessary No Objection Certificate. Action under Foreign Trade (Development and Regulation) Act and Exports (Control) Order has been initiated.

Fertilizer Plants

*228. SHRI RAJENDRA KUMAR SHARMA:
SHRI VJAY NAVAL PATIL:

Will the PRIME MINISTER be pleased to state:

(a) the number of fertilizer plants functioning in the country at present and the total production capacity thereof, unit-wise;

(b) the number of fertilizer plants under public sector and private sector out of them, separately,

(c) whether these plants are functioning according to their production capacity;

(d) the names of plants which are not utilising their full capacity; and

(e) the steps taken by the Government to revamp the working of those plants and increase the production capacity during the Eighth Plan?

THE MINISTER OF STATE IN THE

MINISTRY OF CHEMICALS AND FERTILIZERS (DR. CHINTA MOHAN): (a) to (d). A statement showing details of major fertilizer plants functioning in the public sector, cooperative sector and private sector, and their installed capacity and actual production during the periods 1991-92 and 1992-93 (upto October, 1992) is attached.

(e) It will be seen from the Statement that most of the plants in the public sector and all the plants in cooperative and private sectors are producing satisfactorily, with reference to installed capacity. However, the plants of the two old public sector companies, viz, FCI and HFC are not producing to their respective rated capacities.

The retention price-cum-subsidy scheme has built-in incentives to encourage units to increase their production by revamping and retrofits of their plants. In respect of decentralised fertilizers also increasing the production by revamp etc. will achieve lower units cost of production which will make them competitive in the market. Units producing satisfactorily and having their internal resources have drawn up plans to increase their production during the VIII Plan.

An outlay of Rs. 227 crores for HFC and Rs. 430 crores for FCI has been included for the VIII Plan for various schemes including revamping/rehabilitation of their units. Actual implementation of the revamping measures will, however, depend on the technical and financial viability of the revamping measures and availability of funds through budgetary support. It may be stated that as required under the provisions of the Sick Industrial Companies Act, 1985, as amended recently, both FCI and HFC have referred their cases to the Board for Industrial and Financial Reconstruction (BIFR) which has since declared the as sick companies.

STATEMENT

Unit-wise Capacity and Production during 1991-92 and 1992-93 (April to October)

Nitrogen

(Excluding Industrial Nitrogen)
