Low Generation by Kothagudem Thermal Power Plant

2634. SHRI V. SOBHANADREESWARA RAO: Will the Minister of IRRIGATION AND POWER be pleased to state:

(a) the reasons for low plant load factor at Kothagudem Thermal Power Station;

(b) whether Government of India are considering a proposal to attend to problems of this nature to all the generating units in the country; and

(c) if so, whether Government are going to assist for taking up a renovation scheme prepared by the Andhra Pradesh State Electricity Board ?

THE MINISTER OF IRRIGATION AND POWER (SHRI B. SHANKARANAND) :

(a) The PLF of Kothagudem thermal station has increased from 33.5% in 1981-82 to 43.6% in 1984-85. The main reasons for the low PLF are: (i) constraints in the milling system (ii) frequent failure of induced draft fans, (iii) poor performance of the ash handling system, and (iv) failure of tubes in the superheater, air pre-heater, etc.

(b) and (c). The Centrally sponsored renovation programme includes thermal stations in Andhra Pradesh.

Survey regarding dog-bite cases

2635. SHRI LAKSHMAN MALLICK: will the Minister of HEALTH AND FAMILY WELFARE be pleased to state:

(a) whether Government have conducted any survey regarding the dog-bite cases in the country;

(b) if so the details and its percentage annually, State-wise;

(c) whether there is no remedy except 14 injections in abdomen;

(d) whether the said treatment is a must unless doctor is convinced that dog was vaccinated against rabies;

(e) whether patient is put on injections which are not 100 per cent protective and carry risk of neurological complications in some patients;

(f) if so, the remedial measures taken in this regard; and

(g) whether Government contemplate to make vaccination of pet dogs compulsory and total elimination of stray dogs which are found in large number all over India and also streets ?
