THE MINISTER OF EDUCATION
(SHRI K.C. PANT) : (a) On finalisation of
each five year Plan, the UGC indicates to
each university a tentative allocation of the
general development grants that would be
available during the Plan. This allocation is
determined on the basis of the stage of
development of each university, the nature
and type of programmes offered by it, its
student enrolment and the progress of
implementation of plan schemes approved
earlier. Universities are then asked to submit
their proposals within the allocation so
indicated. These proposals are examined by
the Visiting Committees constituted for
each university and on their recommendation
grants are approved by the Commission. In
addition to the general development grants
so sanctioned, the Commission provides
grants for various quality improvement
programmes. Proposals received from
universities under this category of programmes
are assessed by Committees set up for such
programmes and grants are sanctioned on
the basis of the norms laid down by the
Commission.

(b) A statement showing the total
grants paid to the various universities
during the Sixth Plan is given below.

(c) The tentative allocation for various
universities in the Seventh Plan has not yet
been decided as the Seventh Plan outlay for
higher education has not yet been finalised.
