NOTE : Conversions in rupees are at the post-liquidation rate of exchange (\$ 1-Rs. 7.50) for the years upto 1970-71. For the year 1971-72, pre-May 1971 exchange rates have been retained for conversion into rupee of amortisation payments, but central rates have been used for computing the rupee equivalent of interest payments effected between December, 20, 1971 and March, 31, 1972. For 1972-73, Central rates have been used. For 1973-74 the quarterly average of the exchange rate of the rupee with individual donor currency has been applied for arriving at the equivalent of rupee figures. For arriving at the rupee equivalent of repayments of principal and interest from 1974-75 onwards, actual daily exchange rates of rupee (with the individual donor currency applicable on the respective dates) have been used.
