- (b) The quarters are one room tenements but the present occupancy is much higher than the occupancy for which sanitary services have been designed and this consequently strains the sewerage system. The manholes located in the P&T Colony are maintained by P&T Department and are being cleaned on a regular basis. However, when the NDMC main line gets choked, the sewerage back flows in the manholes resulting in overflowing. In such cases, the sewerage lines are got desilted in coordination with NDMC. No case of spreading of epidemic has been reported.
- (c) A trunk sewerage system has recently been laid along Kali Bari Marg by the The feasibility of connecting the NDMC. sewerage system to P&T Colony to the New trunk line has been examined jointly by P&T and NIMG in the past week. This work will be taken up within a fortnight.
- (d) In view of the above facts, it shall be seen that the officers are doing their best under the existing circumstances and that no action is called for against them.
