Setting up of Steel Plant at Salem

1722. SHRI S NARASIMHA REDDY : Will the Minister of STEEL AND MINES be pleased to state :

(a) whether the Consultants engaged by the Steel Ministry have, after further detailed investigation, expressed doubts as to the suitability of neiveli Lignite and Kanjamalai's iron ore and the manufacturing process based on which the steel plant is being established at salem ; and

(b) if so, whether the report of the findings will be placed on the Table ?

THE MINISTER OF STEEL AND MINES (SHRI S. MOHAN KUMARAMANGALAM) : (a) and (b). The recommendations of the Consultants will be available in the Techno-economic Feasibility Report on the Salem Steel Project, to be submitted by them shortly. The Consultants have, however, indicated in the meantime that Neyveli Lignite char would not be suitable for production of special steels envisaged at salem, due to high sulphur content in the char. As regards Kanjamalai iron ore, they are of the view that the ore can be beneficiated and pelletised for production of hot metal by electric smelting process.
