**Reviews by Planning Commission of Crash Programme for Rural Employment**

2015. SHRI SAMAR MUKHERJEE : Will the Minister of AGRICULTURE be pleased to state :

(a) whether Government's attention has been drawn to the Planning Commission's review of the crash scheme for rural employment in 1971-72 ;

(b) if so whether Government have noted the Commission's conclusion that the scheme has failed to reach the mark in 1971-72, and

(c) the reasons for this failure and the steps taken by the Government to fulfil its pledges regarding providing of employment to 1000 needy persons in every district ?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHLR SINGH) : (a and b) No review of the Crash Scheme for Rural Employment in 1971-72 has been made by the Planning Commission. No such conclusion has been reached

(c) The Government do not consider the working of the Crash Scheme for Rural Employment in 1971-72 as a failure.

The Scheme envisaged an expenditure of Rs. 50 crores and the generation of 875 lakh mandays of employment in a full working season of 10 months. The expenditure reported so far is Rs. 32.37 crores and this has resulted in the generation of 808.22 lakh mandays of employment. It may be added that information in regard to employment is collected in terms of mandays and not in terms of number of persons employed as the period of employment varies from person to person and from project to project. It is roughly estimated that more than 3.2 lakhs of persons have been employed during the year for varying periods. This works out on an average to 957 persons per district for the 348 districts for which proposals were approved. In actual fact, however, the position varies

from State to State and district to district and the performance of some have not come up to the mark. It is expected that with the completion of administrative arrangements, performance will be definitely better during 1972-73.
