3562. { Shri D. J. Naik:
Shri Chhotubhai Patel:
Shri P. R. Patel:

Will the Minister of Health be pleased to state:

(a) how many dental colleges have been established during the Second Five Year Plan period in different States;

(b) the amount of financial assistance given to each of the States for the purpose; and

(c) proposals received from the State Governments for starting new colleges and for expansion of the existing ones in the Third Five Year Plan?

The Minister of Health (Dr. Sushila Nayar): (a) The following dental colleges were established during the Second Five Year Plan period in the States as shown against each:—

Name of the Dental College	Name of the State
1. Dental Wing of the Kerala Medical College, Trivandrum.	
2. Dental Wing of the Andhra Pradesh. Osmania Medical College, Hyderabad.	
3. Dental College, Bangalore.	Mysore.
4. Dental College, Patna.	Bihar.

(b) During the Second Five Year Plan period, the establishment of Dental Colleges was included as a 'Centrally sponsored Scheme' and

the pattern of Central assistance for the scheme was as follows:—

Non-recurring	Rs. 50,000/- per admission. (The Central assistance would not exceed 75% of the ceiling.)
Recurring	Rs. 8,000/- per admission. (The Central assistance would be 50% of this amount). According to the revised procedure being followed with effect from the financial year 1958-59, for the release of Central assistance to the States, allotment of fund is not made scheme-wise but the amount is sanctioned at the end of each financial year for

broad groups or categories of schemes. Three fourths of the total assistance allocated for a financial year is, however, released in lump-sum ways and means advances to the State Governments in nine equal instalments during the course of the year. In view of this position, the question of giving the amount of financial assistance to each of the States, for individual schemes, does not arise.

(c) The following dental colleges are proposed to be established/expanded during the Third Five Year Plan period:—
