

Need to provide sufficient funds under MNREGA Scheme-laid

SHRI VIJAYKUMAR ALIAS VIJAY VASANTH (KANYAKUMARI): MNREGA is the source of basic livelihood for the poor living in rural India. This scheme was introduced by the then UPA Government which has helped uplifting people from poverty. This has also helped a lot in balancing the economic imbalance in the society. Money in the hand of poor helped our economy flourish. Poor communities and women have been the greater beneficiaries of MNREGA. When demonetization/Covid struck our Nation, the financial situation of our Nation went downhill. People were struggling even for proper food. But it was MNREGA scheme which has saved millions of poor during that period. Unfortunately now people working under MNREGA are not being paid on time. There are around 16 crore labourers working under this scheme. A total of Rs 2.7 lakh crore is required to pay their wages. But sadly, Government has allotted only Rs. 60,000 crore for payment to MNREGA workers. This has resulted in non-payment of wages for the workers. People mostly affected due to this are women and poor labourers. Nation is facing unprecedented unemployment crisis. I request the Government to allot sufficient funds so that the wages can be paid and their hunger can be wiped out.
