

## **Regarding recent killing of a Khalistani leader- laid**

**PROF. SOUGATA RAY (DUM DUM):** A serious difference arose between India and Canada over the murder of one Khalistani Leader in Canada. The Canadian Prime Minister has alleged that the murder was masterminded by Indian officials. The US Government has supported Canada's position. The Government of India must come clear in the matter, instead of indulging, shifting Canadian diplomats from India which is retaliated in a similar fashion. Another problem has arisen between India and US Government over the allegation against Indian Government that India had plotted to murder another Khalistani leader in the US. The FBI team is visiting Delhi in the matter, while India has said that it has ordered an enquiry. The Minister of External Affairs should clear the Government of India's position in these two matters, which is causing mis-understanding between India on one side and Canada and US on the other.
