

Regarding introduction of a train to link Anegundi and Ayodhya-laid

SHRI KARADI SANGANNA AMARAPPA (KOPPAL): I would like to submit that Anjanadri hills (part of Kishkindha) at Anegundi is considered as the birth place of Lord Hanuman in Gangavati Koppal District. It attracts scores of devotees from across India, akin to Ayodhya (birth place of Lord Shri Ram). This place is surrounded by the hilly regions and spectacular, picturesque natural beauty, has many historical places, such as Pampa Sarover, Shabri Betta, Durga Betta, Bali Dibba, Gagan Mahal, Naya Vrindavana, Shri Ranganah Temple and 64 pillared Shri Krishnadevaraya Mantapa and many more, which also have mythological importance. There are many historical places near Anegundi, such as Shri Kanagakachlapati Temple, Hemagudda Fort and monolithic structures at Chikaabenekal, which also attract tourists almost throughout the year and could participate in generation of handsome revenue. This train could integrate North India to South India. A new train can create a history for the birth places of two intrinsic persons Shri Ram and Shri Hanuman. In addition, it would also be a great thing if the Hon'ble Minister could name this train as RAMANJANEYA EXPRESS, to feel the worship of God. Thank you Speaker Sir.
