There is a multi-level structure in place to review progress of projects under the Mission. The implementation of SCM at the City level is done by an SPV created for the purpose. At State level, Mission implementation is monitored by the State Level High Powered Steering Committee (HPSC). At the National level, implementation is monitored by an Apex Committee headed by Secretary, Ministry of Housing and Urban Affairs (MoHUA). Nominee Directors of MoHUA on the Boards of SPVs monitor progress in respective cities on a regular basis. MoHUA regularly interacts with the States/Smart Cities through video conferences, review meetings, field visits, regional workshops etc. Smart Cities are continuously assessed on various parameters including, but not limited to, project implementation and utilization of funds through the Real Time Online Geospatial Management Information System (GMIS).

The period of implementation of SCM has been extended upto June 2024 and all Smart Cities, including Smart Cities of Tamil Nadu, are expected to complete their projects within the stipulated time.
